

Wiring Fires Damage Residence, Apartment

Fire caused an estimated \$100 damage to the rear of a five-room frame home occupied by Elmer Monroe at 2803 (rear) Center street at 4:30 p.m. Friday. The blaze originated in electrical service, firemen said, adding that children had been playing in the area.

In another call to the Granite City department, firemen listed \$25 damage to a two-story brick apartment building at an apartment occupied by Mrs. Guy Cooper at 2221 Benton street at 12:30 p.m. Friday. The basement blaze was caused by wiring, and spread along a water pipe, causing bathroom smoke damage.

Rubbish fires were put out at 3 p.m. Sunday at 3222 Wayne avenue and at 7:30 p.m. Sunday at 3308 Kirkpatrick Homes.

Yule Mail Call Aids GI's Morale In Vietnam Fight

Commenting in a letter to his parents that he received lots of cards and letters at Christmas time, a former Madison resident now in Vietnam whose name appeared in the Press-Record's Yule Mail Call, said, "It was a good idea and certainly built up my morale at a very bad time."

The letter writer, Pfc. Alan Novich, U. S. Army, a son of Mr. and Mrs. Frank Novich, 4417 Cookson road, Fairmont City, reported his outfit, the 12th Air Cavalry, was the group caught in ambush by the Viet Cong just before Christmas. The action took place in the Bong Son Valley, south of Da Nang on the China Sea coast.

"All those cards and letters from people I didn't know really helped me over a rough period," Pfc. Novich said. He added for several years prior to moving to Fairmont City, Mrs. Novich was forced to burn the cards, but asked his mother to convey local department store.

Alleged Hit-Run Driver Located After Accident

Finding a damaged auto at West 2nd street and Bryan avenue at 2 p.m. Saturday, police charged Kenneth E. Childers, 40, of 2803 Roosevelt avenue with improper lane usage and failing to report striking an unattended vehicle.

Citing red paint and an emblem, officers alleged that the front of Childers' car hit the left front of the parked auto of Alderman Paul Rutledge, 2808 Benton street, at the 2100 block of Ohio avenue at 11:35 a.m. Saturday. Childers was released pending a hearing Jan. 13.

He thanks to everyone through the newspaper.

The 19-year-old soldier, who has been in Vietnam since October, was graduated in 1965 from Assumption high school, East St. Louis, and attended Southern Illinois University - Southwestern campus for six months before joining the Air Cavalry.

The family resided in Madison for several years prior to moving to Fairmont City. Mrs. Novich was forced to burn the cards, but asked his mother to convey local department store.

William Handlon Dies; Retired Electrician

William G. Handlon, 70, of 2801 Sheridan avenue, a retired electrician, died at 6:50 a.m. Saturday at St. Elizabeth Hospital. He had been a patient there several days.

Mr. Handlon, a native of Grandville, resided in Granite City 43 years. He worked at General Steel Industries before retiring. He is survived by his wife, Edith Mae; three sons, Maurice of California and Jack and James of Illinois; two daughters, Shirley Kopet, Reed Springs, Mo.; three sisters, Mrs. Mina Wahl, Birdsboro, Pa., Mrs. Clara Teasdale, San Jose, Calif., and Mrs. Jewell Schwager, Cornelia, Ga.; six grandchildren and five great-grandchildren.

Services were to be held at 2:30 p.m. today at Trinity Methodist Church, with burial following at Oaklawn Cemetery, Edwardsville. An obituary notice is given elsewhere in this issue.

Butter was smeared over the front window of Scott's car, which was parked at the shop, 2008 East 23rd street, it was reported at 10:50 p.m. Friday.

Fire Chief Issues Warning

Dangerous Dolls are Found in Quad-Cities

Seeking to avert a possible tragedy, Granite City fire department officials today urged local residents to carefully check dolls received by children as Christmas gifts.

Hundreds of raggedy-ann type dolls, found to be highly inflammable and extremely dangerous to small children, were sold at area-wide stores during the holiday shopping season. Priced at approximately \$1 each, the dolls range in size from seven to 15 inches high, with thin plastic faces, stuffed bodies and light blonde, red or black hair, sometimes fashioned in pigtails. The dolls are fully-dressed in colorful clothing and were manufactured in England and Poland. Some have labels denoting their origin under one foot.

Parents are being warned against allowing their children to play with the dolls and are requested to notify fire department personnel at TR 4-111, Station 12, if one is in their possession. The dolls will be picked up, or may be turned in at the nearest fire station.

Fire Chief Earl Farnbacher said this week that three families had voluntarily turned in dolls to his office after hearing of fire hazards connected with them. "We'll be glad to pick them up from local residents," he said, adding, "or, if they are in doubt about a specific doll we will check it out."

The fire chief explained the most flammable part of the doll is its face, made of thin plastic. The material is believed to and the face ignited. The doll is one of the cheapest and most burns like a blowtorch," he said, adding, "or, if they are in doubt about a specific doll we will check it out."

"Burns Like Blowtorch"
Assistant Fire Chief Curtis Don-

During the weekend, Donley visited several local stores where such dolls are known to be sold. The assistant fire chief told the Press-Record, "there is nothing we can do officially to prohibit future sale of the dolls, but we are, hoping store managers will cooperate with us by voluntarily removing the items from sale, or making sure that purchasers are fully aware of the danger connected with them."

Involved in Crash on Way to Aid Daughter

An Eagle Park Acres woman, driving to the scene of an earlier accident in which her daughter had been injured, was involved herself in a crash at 3:30 p.m. Friday in Madison. The driver of the other car received minor injuries.

Police reported that at 2:30 p.m. Friday, a car driven by Esie Jackson, 18, of 200 Allen street, Eagle Park Acres, and a pickup truck driven by Harold L. Price, 2136 Madison avenue, collided at Madison avenue and Sixth street. Miss Jackson was injured and taken to St. Elizabeth Hospital, where she was treated and released.

Miss Jackson's mother, Mrs. Emma Jackson, also of the Allen street address, learned of the accident and was also driving north on Washington avenue toward the accident scene when her car collided at Market street with one driven by Felix Arioste Jr., 1123 Greenwood street, Madison.

Arioste received minor injuries. He was treated at St. Elizabeth Hospital for back pains and was released. Mrs. Jackson was charged with careless driving. A magistrate's hearing will be held later.

Suspect in Attempted Break-In is Released

A man arrested as a suspect in an attempted break-in, after he had been held at gunpoint by a restaurant proprietor, was released after sheriff's officials Friday because entry to the place had not been gained.

The man was picked up by deputy after Chester Teetor, proprietor of the Nu High Grill on Farish street just outside the Madison city limits, stopped the suspect as he was walking down an alley near to grill. He held him at gunpoint till the deputies could arrive.

Teetor said he door to the restaurant was equipped with an alarm that sounded in his home late Thursday night. He said he went outside, saw the man walking away and stopped him.

Mrs. Irene Baldwin, 22-Year Resident, Dies

Mrs. Irene Baldwin, 63, of 2119 Nevada avenue, passed away Thursday afternoon at The Colomades nursing home, where she had been a patient eight days.

Born in Butler county, Ky., Mrs. Baldwin resided in Granite City 22 years. Survivors are her husband, Harry; a daughter, Mrs. Mary Palmer, Granite City; two sons, James Womack, Louisville, Ky., and Morris Womack, Fox River Grove, Ill.; one brother, Ross E. Gibbons, Quincy, Ky.; and eight grandchildren.

Funeral services were held Sunday afternoon in Union, Ky., where burial there. An obituary notice is given elsewhere in this issue.

Treated for Injuries

Treated and released at St. Elizabeth Hospital Friday were Leonard Renner, 32, Staunton, Ill., a Dow Chemical Co. employee who cut the palm of his left hand; Enclosure Ranch, 50, Greenville, Ill., employed by G. H. Sternberg Construction Co., who fell, injuring his right foot and left shoulder; and Clayton Harrison, 33, of 925 Grand avenue, Madison, who had contusions to the right ankle, was injured while working at the Madison bowling lanes.

Stolen Auto Spotted, Alton Man Arrested

A new method of recovering a stolen auto developed just west following the theft of a 1964 model owned by Richard Kace-
ra, 2711 Center street, in Alton last week.

Kacera, connected with a local beer distributing firm, had made a stop for two or three minutes to extend New Year greetings to a customer in Alton when his car disappeared.

After reporting the theft to Alton police, he waited an hour and then called a brother-in-law, William Adams, in Granite City to pick him up.

Enroute to the business establish-ment, Adams spotted Kace-
ra's auto, pulled up in front of it, grabbed the driver out of the car and pinned him to it until police arrived.

Alton police charged Charles Clifford Ross, 42, of East Alton, with theft. He waived preliminary hearing and was bound over to the county grand jury. Bond was set at \$2500.

Kacera drove his own car back to Granite City.

Pfc Joseph Holder Serving in Vietnam

Army Pfc Joseph W. Holder, 23, son of Mrs. Ruby L. Holder, 3116 Aubrey avenue, has been assigned to the 1st Air Cavalry Division in Vietnam.

Holder, an ammunition clerk in Headquarters Company of the division's 15th Supply and Service Battalion in An Khe, entered on active duty in January 1966 and was last stationed in Germany with the 126th Maintenance Battalion. He is a 1961 graduate of Granite City high school.

MARRIED NEW YEAR'S EVE. Mrs. Roy Ethington, the former Geraldine Sullivan, a daughter of Mr. and Mrs. Joseph K. Sullivan of Hartford, Conn., who was married in the Cathedral of St. Joseph in Hartford.

Ethington-Sullivan Nuptial Ceremony on New Year's Eve

Of interest locally was the wedding New Year's Eve in Hartford, Conn., of Miss Geraldine Sullivan, a daughter of Mr. and Mrs. Joseph K. Sullivan of Hartford, and Roy Ethington, Hampton, Va., son of Mr. and Mrs. Richard Ethington, 2037 Bryan avenue.

The ceremony was performed at 10 a.m. at the Cathedral of St. Joseph with the Rev. Paul Workis officiating.

A gown of ivory satin, was worn by the bride. It was made with a sweetheart neckline, long sleeves and a lengthy train. A Hartford, and after a honeymoon veil of illusion was held in place with a crown of pearls and the bride carried a bouquet of white carnations.

The attendants, were Mrs. Thomas Rooney, a sister of the bride, as matron of honor, Mrs. James Izso, another sister, Miss Margaret Barrett, and Miss Virginia Rowell, and Miss Noreen McGill, bridesmaids.

MARRIED RECENTLY. Mr. and Mrs. Michael T. Mounce, whose wedding took place at Hope Lutheran Church. The bride is the former Sharon Sue McIlvoy, a daughter of Mr. and Mrs. Albert W. McIlvoy of Canoga Park, Calif., formerly of Granite City.

RETURN TO CHICAGO John, have returned to their Mr. and Mrs. Douglas Stokely home in Chicago after spending and sons, Matthew, Jeffrey and several days with relatives here.

UNITY CHURCH OF CHRISTIANITY

is seeking to establish a congregation in the Granite City area.

"Unity" has been called the "Religion of Practical Christianity" because it believes the teachings of Jesus were meant to be interpreted and used in our present, everyday lives on a seven-day-a-week basis.

Unity emphasizes the spiritual nature of man; it believes in a positive approach to everyday problems and difficulties. Its teachings demonstrate how we can become more effective Christians, through the development and use of the Spiritual Power within each of us.

Interested persons are requested to write Unity, P. O. Box 304, Granite City, Illinois, or call TR 6-5058 for further information.

MISS SHANNON LITTLE, who will be married to Airman 2/c Gary L. Wright, a son of Mr. and Mrs. Harold Wright, 731 Twenty-eighth street. The engagement is announced by the bride-elect's parents, Mr. and Mrs. Robert Little, Rural Route One.

Miss Stagner Is Engaged

One of the many holiday engagements announced is that of Miss Patsy Stagner, a daughter of Mr. and Mrs. Fentress Stagner, 3145 Carling avenue, and Phillip Butler, whose parents are Mr. and Mrs. Marvin Butler of Adair, Ill.

Miss Stagner is a graduate of the local high school and the Manpower-Business Training Institute, St. Louis. She is employed at the Happy Day Child Care Center. Her fiancé was graduated from A & M Consolidated in College Station, Tex., and attended Blinn College in Brenham, Tex. He is presently employed at Macomb, Ill.

Trojans, Red Devils Win Tournament Titles

Madison is Victorious In 10th Straight Game

After going into a second overtime period, the unbeaten Madison Trojans downed Belleville 67-52 to capture the coveted 16-team Water Del (Brees) cage tournament championship Thursday night.

It was their second year as entrants in the tournament. Madison took third place in last season's invitational tourney.

Championship Game
Coming from behind (40-37 at the half), the Trojans gained a one-point lead on Althoff—their first lead in the game—with but one minute left to play. Then an Althoff player fouled Ron Burt in trying to get possession of the ball. Burt missed his two charity shots and Belleville took the ball.

Stalling and waiting for a shooting position, Althoff was fouled by the Trojans. Aided by free throws, Althoff took a 69-67 lead. With but 25 seconds left, Steve Geroff rebounded a Trojan miss to tie the game at 69-69. In the first overtime, the Trojans gained a three-point advantage but Althoff came back and moved ahead 76-72. In the final seconds of the first overtime period, Burt sank two field goals, tying the score at 76-76 and carrying the game into double overtime.

After gaining a seven-point lead, the Trojans missed free throws and Althoff nearly tied the game again. But the Trojans sharpened their scoring eyes and sank subsequent free throws caused by frenzied Althoff players fouling them.

Coach Earl McCannahan said the Trojans played a "terrific" game against the taller Belleville squad. "Our biggest starter, Albert Boyd (6'2"), matched their smallest. But the boys managed to hang on and fight," he added.

Gary Lusk was the scoring standout with 42 points. Burt had 16, Neal Podoba 12, Geroff eight.

Boyd five and Joe Collins, four points.

Triad Game

Shooting better than 60%, the Trojans easily beat Triad in semi-final play Thursday, 91-65.

"They have a good, tall ball club. Don't think that we were a shoe-in against Triad," McClanahan commented.

He went on to say that both the semi-final win and the championship win were team efforts.

Paced by Lusk, who set a new record for the most points scored by a player in an individual game—44 points—the Trojans gained a halftime lead of 40-33 against Triad and expanded this margin in second periods.

Other Trojan scorers were Burt, 13 points, Boyd 14, Collins nine, Podoba six and Geroff, three, and Williams, two points.

Commenting on regular play, which Madison resumes Friday when it meets Bethalto and tries for a possible 11th straight win, McClanahan said, "They will all be after us now that Collinsville was beaten by Carbondale 57-50 for the title of the Carbondale tournament."

Madison took third place in its meet by beating Triad 67-58, and Nashville won the consolation championship by winning over St. Teresa 73-68.

18,000 Geese Taken In Four Counties

The 1966 goose hunting season in Alexander, Union, Jackson and Williamson counties was closed on Dec. 23 because hunters bagged a record 18,000 geese.

Conservation officials said that if the quota had not been reached the season would have been extended until Jan. 5, or until hunters took 18,000 geese.

FIRST DEER in three seasons of hunting was bagged by Jack Cox, 2972 Warren avenue, with a 45-pound bow, shooting a broadhead fiberglass arrow. The four-point buck was downed in Jackson County recently.

Community Center Wins Park Basketball Title

Community Center won over the Bombers 72-57 to capture the Granite City park district cage tournament championship Thursday.

Dan Partney was awarded a trophy for scoring the most points during the tournament with a total of 90. Jim Reader was next highest, tallying 88 points. Both play on the Community Center team.

The second-place Bombers were led by Pat Kurns, who tallied 80 points for the tournament, and Steve Lingle, 72 points.

Community Center won its

'Y' Jr. High Cagers Suffer First Defeat

Y M C A junior high school cagers Friday lost their first game of the season to the St. Louis Salvation Army 48-46 in double overtime.

The YMCA Lancers, down by 14 points in the opening minutes of the third quarter, changed tactics and rallied to tie the game. The first overtime saw the Lancers narrowly tying the score in the closing seconds. The last overtime was tied until the last three seconds, when Salvation Army loomed in the winning basket.

The Lancers' high scorers were Ron Simpson, Barry Troits and Don Haddix. Gary Penrod was out with injuries.

Host Warriors 3rd in Holiday Mat Tournament

Finishing fourth last year, Decatur wrestlers with a total of 109 points won the Granite City Holiday Tournament ending Thursday at GCHS.

The Warriors, who had lost their tournament one other time, in 1963 to Sterling, placed third in a field of 11 teams with a point total of 55. Second place went to Champaign with 102 points.

Warriors Bill Fuchs (103) and Jan Gibeo (112) won first-place titles in their weight classes. Decatur's Rusty Cunningham (95), after pinning all five of his opponents, was named the meet's outstanding wrestler.

The three matches were worth 12 points on the overall score. If the Warriors had won the title, Decatur would have had eight less points and Champaign would have had four less points.

During the meet, 260 matches were wrestled, with 94 ending in pins.

Tied Halfway Through

Granite City was tied with Decatur, 35-35, after the first three rounds of competition, but problems in the upper weight classes befell the Warriors Thursday.

East St. Louis, which finished fourth with 70 points, had one champion—Jim Stanley in the 189-pound class. Rich Crump of Edwardsville won the 133-pound title.

Fifth place was won by Bloomington with 61 points, followed by Peoria Richwoods with 42, Edwardsville 41, Argenta 22, Wood River and Southwestern 16 points each and Mattoon two points.

Title Bout

In final round competition Thursday, Cunningham (Decatur) pinned Jerry Hinderbach (Champaign) at 3:31 to win the 95-pound class title; Warrior Fuchs pinned George Gilt (East St. Louis) at 2:17 for the 105-pound title; and Warrior Gibeo decided Jim Hunt (Decatur) in the 133-pound class.

In the consolation bracket, Don Mattox (Champaign) defeated Darrow Shells (Decatur) for first place; Mike Ellis (Champaign) pinned Jerry Wones (Southwestern) at 2:30 in the 127-pound class; Crump (Edwardsville) decided Mike Cunningham (Decatur) in the 133-pound class; Gary Griffin (Bloomington) defeated Warrior Jerry Lapinski 4:1 at 138 pounds; Mark Malley (Decatur) decided Barry Foyle (Champaign) at 185; John Griffin (Champaign) decided Warrior Ray Hankins 7:1 in the 154-pound class; Don Truitt (Champaign) decided Bill Bishop (Southwestern) at 1:55 in the 165-pound class; Stanley (East St. Louis) pinned Ed Rogers (Bloomington) at 1:35 in 189-pound competition; and, in the heavyweight class, Charles Scholz (Decatur) pinned Don Manning (Argenta) in 3:45.

Warriors eliminated in fourth-round competition were Ricky Smith (133) by Crump of Edwardsville in a 4-2 decision, Bruce Iles (145), 4-0, and Mike Middleton (heavyweight) by Scholz of Decatur.

Lapinski, Hankins Second Warrior Gus Schalkham (120) finished third in his weight class after losing a round-robin by one point; Jerry Lapinski (138) was runner-up after losing in the finals; Ray Hankins (154) was runner-up; and Ernie Schwendeman (165) finished third after losing by one point in an overtime match to Truitt of Champaign.

Fuchs was the only returning Warrior weight-class champion, and the only meet champion to

Venice Repeats Champ Performance at O'Fallon

Down 11 points at halftime the Venice Red Devils modified their defense, recouped their losses and went on to win the O'Fallon invitational basketball tournament championship from St. Joseph's 59-49 Thursday night.

Venice was the champion for the second year in a row. Johnson City, eliminated from the championship bracket by O'Fallon, won the consolation title by beating Columbia 53-49.

Althoff was the only two turnovers in the second half, the Red Devils held O'Fallon almost scoreless. After a 36-25 deficit at the half, the Red Devils led 42-39 at the third period stop.

"They simply could not adjust to our defensive changes in the second half. But, also, our boys put their heart in it and finished with a great second half," Bill Ohiendorf, Venice coach, told the Press-Record.

"Things were pretty gloomy after that first half, but everybody chipped in to win. The team shot better than 50% during the second half."

Richard Essington led the scoring with 21 points. He also topped the team in scoring for the Red Devils with a total of 81 points.

Other Venice scorers Thursday were Greg Punt, 13 points, John Gardner 11, Russell Turner nine, and Denny Hill, five points.

Consolation Champions Last Thursday

rolling up a 17-7 edge year, the Granite City high school basketball Warriors again opening period and improving its advantage to 34-13 at the half. The game of the Pontiac invitational was 44-23 going into the final holiday tournament Friday eve-

ning but lost 69-60 to Prospect. Althoff was limited to 13 baskets, but he did score 11 free throws, compared to the Warriors' 23 and 13. Moore led with 22 points, Simpson had 18, Hentzel nine, Stuart four, VanBuskirk three, Rains two and Malotki, one.

Althoff scored 39-37 Thursday afternoon and then outdistancing Normal University high school 68-55 Friday morning.

In the consolation game, Prospect scored to 17-11 and 20-23 leads after the first two periods. The Warriors rallied to win the third quarter 20-18 but still trailed 48-43, and saw the winners add four points to their margin in the final period.

Tom Lundstedt and Jim Kingman each scored 18 points to pace Prospect, which enjoyed a 23-21 edge in field goals and a 23-18 advantage in free throws.

Terry Moore led GCHS with 17, Jim Hentzel scored 13, Gary Simpson 12, Jeff Jones 10, John VanBuskirk six and Don Rains two.

Third Quarter Decisive
Against Normal, the Warriors held quarter leads of 18-15, 35-30 and 55-43 before holding their own in the final period.

Leading them in the decisive third quarter and in the game were Moore, who finished with 26 points, and Hentzel, 22. Jones totaled 11, Simpson five, VanBuskirk three and Bob Malotki, two. GCHS led in goals, 26-22, and charity tosses, 16-11.

Granite City ended a five-game losing streak in explosive style.

MORE ABOUT
New Type
The new "Lady in Red," removed only outer garments. More briefly clad at the end of her dance, was a top-billed ballroom stripper, whose suggestive movements were on a bed.

While the ballroom stripper's costume was tapers near the end of her 2½-minute dance, she deftly kept herself covered with a gauze-like scarf and the bedsheet.

The visual jester has 27 selections with most of them of the caliber of a television show featuring scantily clad vocalists and dancers. Other selections feature bands and combos. Each play is 25 cents.

Collide in Madison
Cars driven by Alvina C. Darnell, 4104 Division avenue, and Stanley Banazak, Jr., 1012 Alton avenue, Madison, were damaged at 5:30 p.m. Monday in the 1000 block of Reynolds street, according to a report to Madison police.

Those people who think they know it all seldom demonstrate that knowledge is power.

MORE ABOUT

'Clean Air'

tries encountering such difficulties could operate under various more advanced technological processes were developed.

Opposes Variances

Cairns replied that the major reason the Waste Control Council submitted a clean air proposal of its own was "to establish something we could go by, something we could definitely accomplish and show progress. If all industries are going to operate under variances, what will we accomplish in eliminating air?"

Most difficult problem encountered by the Gateway Council and the Interstate Study group, which was brought out in detail at the meeting last week is that involving availability of coal of low sulfur content for industrial operations.

Burning of coal produces a major part of sulfur-dioxide contaminants, substances which also is a major issue between industry and the Air Study group. The sulfur content of coal, therefore, is a major factor in reducing the volume of sulfur-dioxide emissions.

In the original draft of the Air Study's Air Resource Management Program, establishing pollution limits for control purposes, the Interstate group recommended a coal sulfur content limit of 1.4%. As a result of subsequent protests by industry in public hearings, the Gateway Council raised this limit to a new maximum of 2.25%.

Supplies Unavailable

Representatives of major coal producing firms in Illinois told the Gateway Council in last week's meeting, however, that no available supplies of coal meeting the 2.25% requirement now exist for marketing in the St. Louis metropolitan area. While there are many millions of tons of low sulfur coal in reserve fields, many of them still untapped, virtually all of it is under contract to industry under long-term agreements which range up to 20 years.

James Jones, Chicago, representative of the Midwest Coal Producers Institute whose members mine 85% of the coal produced in Illinois, presented a report in which he maintained there are no low-sulfur coal supplies available to meet the increased demand that would be created if all industry were required to burn low-sulfur coal under terms of an ordinance maximum of 2.25%. High grade coal of low sulfur now is used principally by the metallurgical industry because of the better coking elements. Many other industries use a coal of high sulfur content.

Supporting Jones' report were representatives of four of Illinois' principal coal producing

firms who detailed their production figures for 1966 as to quantity of high and low grade coal. One of these was R. B. Sterrick of the Old Ben Coal Co., which operates mines at West Frankfort, Southern and North Benton.

One Mine to Close

Sterrick said these mines produced six million tons of coal in 1966, but the West Frankfort mine, which mined about 1.7 million tons is to be phased out early in 1967. While the West Frankfort mine produced a small quantity of low-sulfur coal, it is to be replaced by a new mine whose output will be of more than 2.5% sulfur content. All production from the Sessar mine was of more than 2.5% sulfur content, Sterrick said, while the North Benton mine produced about 1.7 million tons of low sulfur content coal. All production of the North Benton mine was shipped to industry under prior commitments.

Jones produced other witnesses who told the Gateway Council the same situation existed in Indiana, West Virginia and Eastern Kentucky fields where low-sulfur coal is in short supply and insufficient to meet the current demand, disregard highly increased requirements resulting from enforcement of a minimum sulfur content of 2.25%.

Jones remarked that "with the U. S. Public Health Service pushing all over the country for use of low-sulfur coal, there is bound to be a shortage." Jones told the council that unless the sulfur requirement is raised to 3.6%, as a maximum, or 3.3%, as an average, 70% of the Southern Illinois coal market would be lost to Illinois mines.

Challenge Coal Report

Technical representatives of the Interstate group challenged Jones' report, pointing out that during the public hearings held in September and October, a report presented by Dr. Clayton Ball, a Chicago private consulting engineer retained by the Waste Control Council to determine existing coal supplies, said there were 500-million tons of coal available, much of it of low sulfur content.

James Williams, U. S. Public Health Service engineer, told industrial representatives that a "your own report listed sufficient coal supplies in the 2% sulfur range and as a result we raised the limit from 1.4% to 2.25%. Now you tell us there is no coal to meet that requirement and want us to raise the maximum to 3.6%."

Jones replied that such was the case, but referred again to testimony of the coal producers that available supplies of low-sulfur coal already are under contract and in reserve to meet demands given by the coal producers to industrial users. "Dr. Ball's report actually said there were about 1 billion tons of coal in the ground, and

this is about right," Jones explained. "But coal in the ground does not mean all of it can be mined. Past experience shows that approximately 50% of coal in the ground is recoverable by mining operations. This is the basis for Dr. Ball's reference to 500 million tons."

Can't Control Content

"In fact," Jones added, "I think if you will check our report, we show 582 million tons of coal believed to be available in the Southern Illinois fields, but we cannot say what its components are. We are not dealing with a manufactured product. We are only recovering what nature put in the ground and we have no control over whether it is 2% sulfur, or 3% sulfur or whatever it may be. We have to take what is there."

Williams remarked: "If we had to approve a 3.6% maximum sulfur content for coal, what hope would we then have of ever achieving anything substantial in the way of abatement of particulate contaminants?"

"I think that will come through a process of attrition," Jones replied. "As you well know, new utility plants are being built in many locations and all of these are in outlying areas. Utility plants burn a lot of coal and their contaminants are high. These eventually will be eliminated from the more populated areas one by one and cause considerable reduction in particulate pollution."

In addition, Jones commented, there is certain to be breakthroughs in technological processes for burning coal of higher sulfur content without a resultant sulfur production of sulfur-dioxide particulates. "Millions of dollars are being spent on research for such processes and they should not be too far in the future," Jones said.

Technology to Advance

Industry has maintained in its arguments that technology advancements will do much toward pollution abatement in the near future. As an example, substantial reductions in hydrocarbon and carbon monoxide emissions from the exhausts of automobiles and other motor vehicles are expected within the next year through devices that will reduce such emissions.

In the use of high sulfur content coal, Williams referred to sulfur-dioxide emissions from such process as a health hazard.

Robert French, regional representative of the Illinois Air Pollution Control Board, took exception to the remark. He told the council: "There is no testimony of any kind in the Interstate Air Study, medical or otherwise, that proves sulfur-dioxide is a health hazard. The only reference to sulfur-dioxide as a health hazard is purely a matter of opinion by those who wrote the study." Elliot Porter, executive secretary of the Missouri Air Conservation Commission, said he was not convinced the coal supply report presented by Jones was an accurate picture of available supplies and asked for further investigation.

To Probe Coal Supply

As a result, one of the conferees to be held this week will pertain to available coal supplies. Roos suggested that Dr. Ball be asked to meet with the technicians to clarify some phases of his report made last September.

Industry also is challenging the use of the Ringelman chart as a means of determining violations. The chart originally was devised as an opacity gauge to check the density of smoke and, therefore, the volume of particulate emissions from the burning of coal. Industry representatives maintain that an indiscriminate or incompetent inspector could declare a violation any time he saw a plume and the industry charged would have no defense except to make a "stack test" which, it was pointed out, costs about \$200.

Industry has presented to the Gateway Council its own "Clean Air" program which it maintains would do the same job as an ordinance based on the Interstate Study and, in some instances, invokes even stricter requirements than the Air Study.

Briefly, variations between the Interstate requirements and those proposed by industry are as follows on each of the points at issue.

1. Regulation II, maximum allowable emission of particulate matter from fuel burning equipment used for indirect heating. The Interstate study provides limits of particulate matter emission with larger heating units having proportionately lower limits, with a separate table of limits provided for smaller stokers. The Waste Control Council recommends limits set forth in the American Society of Mechanical Engineers guide for control of dust emission-combustion for indirect heat exchangers.

Gas Source Maximums

2. Regulation IV, Restriction of emission of particulate matter from industrial processes. Interstate study limits particulate emissions by process weight. Provides for alternate limits based upon gas source volume. Places a maximum limit on particulate matter of 0.30 grains per standard cubic foot of exhaust gases. The Waste Control Council proposes increasing the limit on particulate matter from 0.30 to 0.40 grains per standard cubic foot of exhaust gases, and fixes separate specific limits for the iron and steel industry, petroleum refining, foundries and cement plants.

3. Regulation VII, Incinerator Control. Interstate recommends restriction of particulate emission from large incinerators to 0.3 grains per standard dry cubic foot of exhaust and allows exceptions for residences in low density areas. Limits small incinerators to use between 10 m. and 4 m. and a two and

a half year period for transition to multiple chambered incinerators.

Waste Control Council recommends both small and large incinerators be allowed to emit 0.3 grains per SCF of particulate matter.

Asks Deletion

5. Regulation XIII, Emission of certain settleable acids and alkaline substances restricted. Interstate rule regulates downward fall of acidic or alkaline substances by measuring downwind and upwind fallout. IWCC recommends deletion of this regulation.

Regulation XIV Emission

certain sulfur compounds restricted. Interstate prohibits emission of gases with more than 2000 parts per million of sulfur dioxide from existing sources, or 500 PPM from new sources. IWCC establishes the 2000 PPM for emission of sulfur dioxide gases for all sources, including existing sources.

Regulation X'II, Control of

odors in the amt. at inter. Interstate prohibits emissions causing

objectionable odors, with higher standards in residential type areas and lower standards in industrial areas; declares odor objectionable when 10% of those exposed so determine, with sample size to be at least 20 people. IWCC asks no change in the requirement but an increase to 50% in the percentage to determine an odor objectionable, with the sample size to be at least 40 people.

Most of these points were discussed in last week's meeting, along with the economic impact of their adoption, and most are to be discussed further in this week's conference.

Roos, remarked in suggesting the scheduling of such meetings that he believed the points at issue had been narrowed to where the settlement can be achieved to permit adoption of an area-wide ordinance acceptable to all parts of the area.

Fate of the control measure will depend to a great extent upon the outcome of the technical conferences and the willingness of both sides to compromise differences, he pointed out.

19th Street Mishap

Pulling away from the curb on 19th street at Cleveland Blvd., at noon Friday, the auto of Georgia Cottrell, 1808 Poplar street, collided with the right rear of the westbound car of Margaret Koehler, Collinsville.

Granite City PRESS-RECORD
Tues., Jan. 3, 1967 Page 7

William Gossett, 71, War I Veteran, Dies

William Gossett, 71, Buckner, Ill., was found dead Sunday at his home. He is believed to have died there Friday of a cerebral hemorrhage.

Born in Madison, Mr. Gossett was a Quad-City resident until moving to Buckner a year ago. A welder, he at one time worked for the American Car & Foundry Co. for 10 years. He had been retired five years.

He served in the Army during world war I and was a member of Madison Barracks 34, World War I Veterans of the U.S.A.

His wife, Gertrude, died in 1966. He is survived by a son, James William Gossett, Cottage Hill; a daughter, Mrs. Maude Boner, Chicago; and two grandchildren. Funeral arrangements are given in the obituary column.

Right-of-Way Charge

Henry S. Connors Jr., Alton, was charged with a right-of-way violation at 12:30 p.m. Thursday at 20th street and Madison avenue. He was summoned for a hearing by Jan. 19.

Men who start at the bottom are always sure of having something solid to fall back on.

Kaseberg Gives '67 Forecast For Optimist Club Members

An upsurge in late spring or summer in the area of home building and industrial production, plus a continuing shortage of skilled and semi-skilled labor were forecast for 1967 in the Quad-City area by Howard Kaseberg, president of the Tri-Cities Chamber of Commerce, when he addressed Granite City Optimists last week.

Prospects for the new year are related to events of 1966 were discussed by the C. of C. executive at a noon luncheon meeting Thursday in the YMCA.

Kaseberg who has extensive farm holdings in Nameoki township and owns and operates a Kaseberg Equipment Co. on Highway 3, also serves as chairman of the Madison County Zoning Board of Appeals.

Tight Credit to Ease
He predicted the current tight credit situation should ease shortly, resulting in an upturn in the homebuilding trade. A critical shortage of skilled workers in the area's labor market will continue to be felt, the business leader pointed out.

Noting that a drop-off in the 1966 automobile sales market had proportionately decreased some facets in local industry, Kaseberg said he believed the situation will carry over somewhat into the current year, with an upsurge of business in this area occurring in late spring and summer.

Planning for proper land use and zoning in Madison county will be continued by county officials, Kaseberg pointed out, adding that the board of appeals is anticipating fewer applications for zoning changes in the county during the current year.

With reference to 1967 agricultural prospects, the C. of C. officer said that farm prices and production are expected to remain fairly consistent at current levels with markets good, but spotty. He commented, "Although food prices are high, wages are even higher and food items still remain the best buy of any product today."

Predicts Wheat Shortage
During an extensive question and answer period following his talk, Kaseberg discussed the disappearance of surplus wheat from the U. S. market.

He said within a three year period, the U. S. will be unable to meet its own demands for wheat products. Complete removal of restrictions on wheat planting and new developments in technology, in order to produce more grain per acre, were among the solutions offered by Kaseberg.

Marvin Van Metre, newly-appointed YMCA adult program and membership director, will be guest speaker at the club's weekly meeting this Thursday. It was announced by William L. Harris, program chairman. The "Y" official will discuss plans for increasing adult participation in YMCA activities through new and revised programs to be presented this week.

Wilbert Tribes, Optimist president, conducted the brief business meeting and announced an executive board session for 5 p.m. Jan. 9, at the Metropolitan Life Insurance office. Twenty-five Optimists attended the luncheon.

FREE TOUR LITERATURE
AT HOLIDAY SERVICE
Granite City PRESS-RECORD
Page 8 Tues., Jan. 3, 1967

22 HOLIDAY BASKETS for needy families being distributed by, left to right, —William Bollinger, Del Frech, John Lakin, partially obscured, and Robert Thompson, four A. O. Smith Corp. supervisors who sponsored the families. This action was typical of the many Quad-Cityans helping others during the holidays.

'Tree of Lights' Tops Goal by over \$1450

Cash gifts to the Salvation Army's "Tree of Lights" fund, plus donated items with an estimated value of \$1300, provided needy Quad-City area families with food, clothing and toys during the holiday season.

The combined total now exceeds the 1966 "Tree of Lights" goal by \$1452, it was announced today by George Reeves, drive chairman, and Lt. Donald Wisor, Salvation Army commander. The two men expressed their appreciation to local groups, business firms and individuals for the support given in making the campaign a success.

Several organizations furnished food items in varying amounts ranging from a donation of 3200 canned goods, valued at \$700 provided by Eagles Aerie 1126 and Auxiliary, to two young boys, Kyle McMahon and Mike Wall, who delivered in person at the Salvation Army headquarters several canned items.

The youngsters told the Army officials the canned goods had been obtained through the efforts of a few Cub Scouts in Den One, Cub Pack 96, and represented a separate donation over and above another collection made by the entire pack.

Other groups adding to the quantity of donated items, included River Bluffs Girl Scouts; American Legion, Tri-City Post 113; Coolidge Junior High school students; Cub Pack 96, Marysville school and Pack 122 of Wil-

son school; Granite City park board; Mrs. Katherine Richardson's fourth grade class at the Nameoki school; Granite City Mothers Club and the Venice playboys; and Seven-Up Bottling Co. The two latter groups provided toys and dolls for the Salvation Army's "per Sham."

In addition to the 350 Quad-City families, representing an estimated 1200 persons, who directly received Christmas baskets, clothing and toys from the Salvation Army, several local groups and one individual obtained names and addresses of those in need and delivered their own purchases and delivery.

Among those securing names were Granite City high school; Quad-City Amvets Post 51; Granite City Army Depot; A. O. Smith Corp.; Cub Pack 20, Webster school; VFW Junior Girls Club; Granite City Junior Service Club; Third Baptist Church; Tri-Hi-Y Club; Dr. Albert Association, Area 49, Nicholas Trianj and the Advanced Leader-

ship Club at Granite City high school. Two other groups which distributed baskets after clearing the Salvation Army, Protestant Welfare and Catholic Charities. Shown with the food items and other gifts is Rex Manning, Post 51 commander.

County Gives Green Light for Old Building
A contract by Madison county to purchase and remodel the old post office building in Edwardsville through a \$225,000 bank loan was authorized last week by the courthouse committee of the county board of supervisors.

The money is to be borrowed from two Edwardsville banks, and the property is to be purchased from the Cassens brothers firm in Edwardsville, for \$74,000, pending final approval by the county board. Interest is not to exceed six per cent.

The building is to be used for additional office space for the county government. The courthouse committee has advised Lee R. Schlemmer, county highway superintendent, and Wilbur E. L. Trimpe, county superintendent of schools, to draw plans for their needs in the building. The committee also is considering moving the zoning, building and maps and planning department into the post office.

Providing the funds are the Bank of Edwardsville and the National Bank & Trust Co. at Edwardsville, who will purchase the building from the Cassens interests. Remodeling plans are to be completed by the Kane architectural firm at Edwardsville before construction bids will be called.

J. A. Businesses Prove Good Training Grounds

The existence of a rising tide of anti-business sentiment among U. S. teenagers was countered in a report released today by Junior Achievement Inc., an economic education organization in which high school students organize and manage their own small-scale business under the guidance of adult advisers from business and industry. Hundreds of local teenagers participate in activities of the J.A. Center here.

The report, based on a survey conducted for Junior Achievement by Opinion Research Corp., stated that men and women who have been in Junior Achievement are more favorably disposed toward business and the American survey-free enterprise system, and exhibit a better understanding of enjoyable extracurricular activity, but as one that has a lasting impact upon the lives of its participants.

Further, these graduate Achievers tend to oppose the increasing control being placed on business and industry by government and place a higher value on personal freedom.

The survey, which included 552 men and women who had been in J.A. from four to eight years ago, was conducted in 23 cities across the country, and consisted of intensive personal interviews and a questionnaire on economic facts and principles. The survey, in part, revealed that:

Results of Survey
68% agree that the profits of large companies help make things better for everyone who buys their products or services.
70% disagree with the statement that "When a number of companies making the same thing start going out of business because of competition, the government should step in and do something about it."

68% feel that competition, in normal times, can be depended upon to keep prices at a fair level.

NEW LOW PRICED HEARING AMPLIFIER PERFECTED

Hearing is rapidly becoming the most neglected of the senses. Thousands of people have living sub-normal hearing live with mounting stress and tension because they cannot afford expensive aids.

An Engineer has perfected a **PERSONAL AMPLIFIER** which offers new hope to those people. Designed for those who can hear when sounds are louder and for those who can hear but do not always understand, this tiny compact unit can provide the help people need to live full active lives. Weighing only a third of an ounce, without wires or cords, this amazing electronic marvel hides behind the ear. Space-age techniques make it possible to offer the **PERSONAL AMPLIFIER** at a very small fraction of the cost of a hearing aid.

For full details, without obligation, write: **HEARING, P. O. Box 154, Florissant, Mo.**

SOCIETY

MISS DIANA BARFIELD, fiancée of Kenneth E. Horvath, a son of Mr. and Mrs. Carl Horvath of Edwardsville. The engagement is announced by the parents of the bride-to-be, Mr. and Mrs. George Barfield of Glen Carbon, formerly of Granite City.

Melton-DeMoro Engagement

Just announced is the engagement of Miss Diana DeMoro, a daughter of Mr. and Mrs. Ulonio DeMoro of Collinsville, to A 3/c Jim L. Melton, a son of Mrs. Betty Melton, 3051 Sinclair avenue.

A 1966 graduate of the Collinsville high school, Miss DeMoro is employed by the Southwestern Illinois Metropolitan Area Planning Commission.

Airman Melton was graduated from the Granite City high school and attended Southern Illinois University before entering military service. He is now studying electronics at Keesler Air Force Base in Biloxi, Miss.

MR. AND MRS. ETHINGTON ATTEND WEDDING IN EAST

Mr. and Mrs. Richard Ethington, 2037 Bryan avenue, motored to Hartford, Conn., to attend the wedding of their son, Roy, a petty officer in the submarine service, to Miss Geraldine Sullivan of Hartford on New Year's Eve.

They were accompanied by Mr. and Mrs. Calvin Ethington of Glen Carbon and returned home Sunday. The newlyweds were expected to arrive in Granite City today.

HOME, GOING OVERSEAS

Specialist-fifth James Presley, son of Mr. and Mrs. James Presley sr., 317 East Chain of Rocks road, arrived home from Fort Dix, N. J., with his family to spend the holidays. After spending a month here, he will go overseas for further duty. His wife and children will remain here.

BETROTHED. Miss Diana DeMoro, whose parents, Mr. and Mrs. Ulonio DeMoro, Collinsville, are announcing her engagement to A3/c Jim L. Melton, a son of Mrs. Betty Melton, 3051 Sinclair avenue, Granite City.

Suffers Hand Injury

Jim Scates, 32, Rural Route Five, Edwardsville, a Granite City Steel Co. pipefitter, was admitted to St. Elizabeth Hospital at 11:20 p.m. Friday after he crushed several fingers on each hand in a mishap at work.

PICTURE FRAMES: CUSTOM MADE. G. C. GLASS CO., 18th EDISON.

MISS PATSY STAGNER, who is engaged to Philip Butler, a son of Mr. and Mrs. Marvin Butler of Adair, Ill. The bride-to-be is a daughter of Mr. and Mrs. Fontress Stagner, 3145 Carlson avenue.

BROWNING-JAMES WEDDING HELD FRIDAY

Miss Sheila James, daughter of Mr. and Mrs. Edward L. James jr., 12 Concord drive, Caseyville, and William G. Browning, son of Mrs. Gertrude Browning, 2019 Park avenue, were married Friday evening in Belleville.

A reception was held immediately following at Fischer's restaurant in Belleville. The couple was attended by Mrs. David Yocis, a sister of the bride, and Charles E. Browning, a brother of the groom. The reception was attended by the family and close friends.

The former Miss James is employed by St. Luke's Hospital, St. Louis as a registered nurse. The groom is a part-time student at Southern Illinois University and is employed by Alton State Hospital as a psychiatric aide. The couple will reside in Godfrey.

SECRETARIES TO HAVE GUEST SPEAKER

A monthly meeting of the Tri-Cities Chapter of The National Secretaries Association (International) will be held at 6 p.m. Thursday at the Grand Cafe. The guest speaker will be Robert O. Butler, an associate professor at St. Louis University. Interested secretaries are invited to attend. Reservations are to be made with Edith Headrick at TR 6-2619 or Shirley Schwendemann, TR 6-6843, after 5 p.m.

BRIDAL SHOWER FOR MISS DONNA KING

Miss Donna King, a daughter of Mr. and Mrs. Roy King of Glen Carbon, who will be married Saturday to Tom Hartzel, son of Mr. and Mrs. William H. Hartzel, Rural Route One, Edwardsville, was complimented with a bridal shower Friday evening. Both families are former longtime residents of Granite City.

The pre-wedding party was given by Mrs. Hartzel and her daughter-in-law, Mrs. Jack Hartzel, at the former's home. Games were played and prizes were awarded, with the hostesses also to serve a buffet luncheon to 48 guests. Many gifts were presented to the bride-to-be, whose wedding will take place at the Glen Carbon Baptist Church. Many of the guests were Quad-City relatives of the young couple, including Miss King's grandmother, Mrs. Ida Holder, and her fiancée's grandmother, Mrs. Anna Hartzel, both of Granite City. The bride-elect is employed at Mercantile Trust Co., St. Louis. The prospective groom is employed in the office at Granite City Steel Co. Both are 1966 graduates of Edwardsville high school.

NEW YEAR'S GUESTS

Mr. and Mrs. Bryan Waggoner and son, Eugene, 2514 Grand avenue, had as guests at a New Year's Day party a son-in-law and daughter, Mr. and Mrs. Ray Mercer and their son, Mark; Douglas Lindsey, Mrs. A. J. Richards, Miss Irma Bauer and Rev. and Mrs. John H. Amsbury and children, Judy, Cynthia, Becky, Dan and Jim. Rev. Amsbury is pastor of the Dewey Avenue Methodist Church.

BRIDE-TO-BE. Miss Judith Loftus, fiancée of Fred R. Allen, a son of Mr. and Mrs. Robert Allen, 3040 Myrtle avenue. The engagement of the couple has been announced by the bride-elect's mother, Mrs. Norma Loftus, 3101 Ash avenue.

Miss Loftus To be June Bride

The engagement of Miss Judith Ann Loftus, a daughter of Mrs. Norma Loftus, 3101 Ash avenue, and the late Joseph Loftus, to Fred Robert Allen, a son of Mr. and Mrs. Robert Allen, 3040 Myrtle avenue, was announced at an open house at the Loftus home during the holidays.

Miss Loftus, a graduate of the local schools, is now a student at Illinois State University in Normal, majoring in English.

Her fiancé, also a graduate of local schools, received his Bachelor of Science degree in art education at Southern Illinois University. He is now completing work on a Master of Science degree in art at ISU, where he is serving as a graduate assistant. A June wedding is planned.

VISITS DAUGHTER

Mrs. Bethel J. Davis of State street has returned from Arlington, Va., where she spent the Christmas holidays with her son-in-law and daughter, Mr. and Mrs. Maurice C. O'Connor jr. and their family.

SOCIETY

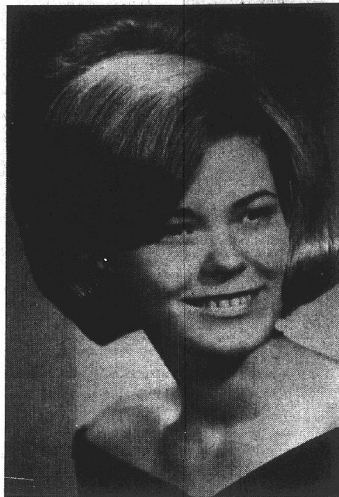

MISS DONNA WEST, whose betrothal to Kenneth Wille, a son of Mr. and Mrs. Raymond Wille, 2223 Lincoln avenue, is announced. The bride-to-be is a daughter of Mrs. Marie West, 3005 National avenue, and Robert T. West of Mt. Vernon, Ill.

Wille and West Engagement

Miss Donna West, a daughter of Mrs. Marie West, 3005 National avenue, and Robert T. West of

Mt. Vernon, Ill., will become the bride of Kenneth Wille, according to an announcement just made by the bride-elect's mother.

Miss West is a junior at Blackburn College in Carlinville. Her fiancé, a son of Mr. and Mrs. Raymond Wille, 2223 Lincoln avenue, is a senior student at Southern Illinois University in Carbondale. The wedding date has not been set.

MISS CAROLYN SUE WHITE, a bride-to-be, Her parents, Mr. and Mrs. James L. White, of Edwardsville, have just announced her betrothal to Ronald F. Nemeth, a son of Mr. and Mrs. Frank Nemeth, 2900 Saratoga avenue.

Nemeth-White Engagement

Announcement is made by Mr. and Mrs. James L. White, 746

Vogel avenue, Edwardsville, of the engagement of their daughter, Miss Carolyn Sue White, to Ronald F. Nemeth, a son of Mr. and Mrs. Frank Nemeth, 2900 Saratoga avenue.

Miss White was graduated from the Edwardsville high school and a beauty college. She is presently employed by the Cut and Curl Beauty Shop in Nameoki Village shopping center. Her fiancé, a graduate of the local high school, attended Southern Illinois University in Carbondale and is now attending night classes at Belleville Junior College. He is employed by Granite City Steel Co. Tentative plans are being made for the wedding May 27 at St. Margaret Mary Catholic Church.

MISS EVELYN BARNES, whose parents, Mr. and Mrs. William C. Barnes, 2454 Logan street, are announcing her engagement to Michael Joseph Duffin, whose parents are Mr. and Mrs. Lloyd Duffin of Route 2, Alhambra.

Engagement Being Announced

Mr. and Mrs. William C. Barnes, 2454 Logan street, are announcing the engagement of their daughter, Miss Evelyn Barnes, to Michael Joseph Duffin, a son of Mr. and Mrs. Lloyd Duffin, Route 2, Alhambra.

The bride-to-be was graduated from Granite City high school and is presently a clerk-typist and student at Southern Illinois University-Southwestern campus. Mr. Duffin was graduated from the Highland high school and attended SIU-SW. He is employed by the Madison county highway department. He will leave Thursday for military service with the U. S. Marine Corps in San Diego, Calif.

Party Honors

Lois Saltich, daughter of Mr. and Mrs. Steve Saltich, celebrated her first birthday at a party given by her parents Thursday evening in the home of her grandparents, Mr. and Mrs. Walter Stawar, 2296 Gary avenue.

Miss Linda Davis Is Engaged

Patrolman and Mrs. Gerald Pinkerton, 3004 National avenue, are announcing the engagement of their daughter, Miss Linda Sue Davis, to Billy Dean Mank, a son of Mrs. Louise Anna Mank, 2625 Highway 67.

The bride-to-be was graduated from the Granite City high school, as was her fiancé, and is presently attending Southern Illinois University-Southwestern campus. Wedding plans are indefinite.

ATTEND WEDDING HERE

Mr. and Mrs. J. Sanford McCauley of Hollywood, Calif., left Friday for their home after visiting the past week with Mr. McCauley's mother, Mrs. Mary E. McCauley, 2619 Edison avenue, and other relatives and attending the wedding Wednesday evening of his niece, Miss Elizabeth Ann McCauley, and C. Earl Cawthorne. The ceremony took place at First United Presbyterian Church.

MISS SANDRA JEAN BLOOMQUIST, who will be married March 4 to John N. Fenner, a son of Mr. and Mrs. John A. Fenner of St. Louis. The engagement of the couple has just been announced by the parents of the bride-elect, Mr. and Mrs. Harold Bloomquist of 149 Troy road, Collinsville, former Granite Cityans.

MISS LINDA SUE DAVIS. Her parents, Patrolman and Mrs. Gerald Pinkerton, 3004 National avenue, have announced her engagement to Billy Dean Mank, a son of Mrs. Louise A. Mank, 2625 Highway 67.

FAVORS FEDERAL ROLE IN WELFARE AGENCY FIELD

To the Editor: I am writing in response to the editorial in the Dec. 22 issue, entitled "Duplication of Welfare Programs Should Be Avoided."

The editorial referred directly to the current proposal of the Madison County Economic Opportunity Commission for a centrally located, "hard-core" neighborhood service center program.

Very basically, the proposal calls for the establishment of five centers throughout the county in target areas (deprived), with two central themes:

1. Self-help by community organization.
2. Social services, many now in existence and some new, using the center as a base of operations for these hard-core areas.

A complete review of the editorial critical editorial would undoubtedly take more time than was "seemingly spent by the editor in briefing the exact nature of this program. I would, however, like to comment briefly on five specific criticisms which were made.

The overriding point which was made was the fear of a duplication of services, a good issue. At the same time, the center program was defined as not providing "direct help" but only as being a coordinating body.

If both these criticisms be true, then one might well ask, "Who provides such coordination now and would this be duplicated?" The fact is that coordination must certainly be regarded as "direct help."

However, the center proposal also calls for the development of new programs — programs not now being offered. Practically speaking, it would be just impossible for us to obtain federal funds to set programs which would duplicate existing areas of service.

Another point made in the editorial was that the use of existing agencies in the center would be unduly tax and strain these agencies.

We would, in fact, aid these agencies by providing recruitment and outreach, securing lay leaders, offering staff training workshops, and enabling them to reach more people more effectively at a very minimal expense to them.

The next point that I would comment on here is the inference that the EOC plan assumes incompetency, inefficiency and unwillingness to do the job on the part of local existing agencies.

If the EOC felt this way concerning existing agencies, it most certainly would not expend such great effort in seeking the cooperation of these agencies.

Today's Investor

Diversified, Monthly Investment

By THOMAS E. O'HARA, Chairman, National Association of Investment Clubs

Q. I am a chess widow in my late 30's. My net worth is \$22,000, I am paid \$800 a month and I am 60 from the proceeds of my husband's life insurance policy. I have \$7000 in a savings account, and 204 shares of AT&T, bought through payroll deductions at Bell System employee, and am electronics or synthetic materials.

A. I only have \$100 to invest. Do I have to invest it all, or can I buy some shares at lower prices? How do I go about buying stocks? I'm 15 years old and I feel I want to get started as my father has no security for me or myself.

A. Many years ago I started my own investment program when I was about your age. I made a few mistakes, but available that makes forming a club an easy matter. You probably would find the monthly meetings stimulating and that would serve to widen your circle of friends.

As for your personal investment program, with your salary, insurance, dividends and interest, you have more than \$10,000 a year income, so it seems you should be able to invest \$1000 to \$1200 a year quite easily.

There are several possibilities you might consider. You could select a good, sound mutual fund under a plan where you could avoid the front-load commissions. Chrysler or in one of our good oil companies, or with a good utility plan (MIP).

If you wish your brother, through which you would build up direct holdings of several good securities, on your money and will find your major oil companies, utilities and other stocks are all selling at attractive prices these days.

Three Monthly Investment Plans—one for each company—would allow you to have direct holdings of three different stocks in the years ahead.

The MIP has this additional advantage: it allows you to have direct holdings of three different stocks in the years ahead.

Eventful Year Brought New Park, Ice Rink, Sewer and Hospital Grants, Plant Sites, Bridge

As a popular song of 1966 said, "It was a very good year."

This is the basic conclusion of our review of the year that has just drawn to a close. A look ahead to the challenges of 1967 will be given in Thursday's editorial column.

Highlights of the past year that come quickly to mind are the razing of the unsightly old Granite City post office and creation of Civic Park at the site, and the start of construction of a large ice rink and recreation center in Wilson Park.

In combination with the nearby Granite City high school cafeteria building completed this fall, the new 3500-person-capacity recreation structure will give the facilities for recreational activities and state meetings. A State Junior Sports Jamboree held here in 1966 attracted Gov. Kerner, 574 youthful athletic competitors and 2000 visitors.

Significant progress also was made in other fields:

ECONOMIC GROWTH — The "golden 1960's" regained ground in terms of almost complete employment and high wages and living standards. With a 9000-acre industrial park created in Chouteau township, a potential billion-dollar development plan was disclosed.

Construction trades signed three-year contracts, as did all Granite City school employee groups, and a Union Starch & Refining Co. dispute ended after 208 days. This plant later was acquired by Miles Laboratories, a major pharmaceutical and chemical manufacturer.

Granite City Steel Co. and American Steel Foundries' expansions progressed and General Steel Industries continued diversification. Work began on industrial clean air devices, and an ambitious residential-commercial "clean up, fix up, paint up" campaign was conducted. Downtown merchants took a candid look at commercial area revitalization needs.

A \$500,000 railroad yard for auto unloading was built in Venice, Madison county and Granite City moved closer to overtaking St. Clair county and Alton in population. New apartment and medical offices were built. Screening of financial solicitations was instituted, and new apartment and advanced building labor training programs were started.

GOVERNMENT — There were closely-contested, primary and general election races. Nearly half of Madison county voters split their tickets. The two-party system strengthened here and nationally. Ninety-five improper names were removed from voter registration rolls. Overflow crowds attended Granite City and Namekoni township annual town meetings, and both will be held in the evening in 1967.

Greater daylight saving time uniformity was virtually assured. A Granite City air purity board began meeting regularly, and a city air pollution control expert was hired, and regional air purity regulations were studied by the East-West Gateway Coordinating Council. Local governmental units joined in financial aid for the Gateway Council, enabling areawide transportation planning to be coordinated, a prerequisite for continued receipt of federal highway funds. State banking laws were amended.

Madison county voters approved construction of a juvenile detention home, and a new county

50 YEARS AGO

Granite City PRESS-RECORD
Tues., Jan. 3, 1917

The annual ball and reception of the Granite City Camp No. 175, Workers of the World, will be given at Assembly Hall, 18th and State streets. Admission will be 35 cents a person.

Teamsters' Local Union No. 61 of the Tri-Cities will give its annual ball at the Assembly Hall.

Granite City camps of the Royal Neighbors and Modern Woodmen of America will hold their first annual joint ball at the Assembly Hall.

The seventh annual ball of the Tri-Cities Central Trades Council will be held at Assembly Hall, with an admission charge of 35 cents per person.

The Ladies' Aid Society of the Nidringhaus M.E. Church met

25 YEARS AGO

Granite City PRESS-RECORD
Tues., Jan. 3, 1942

At a meeting of Madison county supervisors, Chairman Gus Haller announced the appointment of rationing boards for all townships not incorporated as cities or villages.

Those appointed for Venice township are William H. F. Branding, Charles H. Bauer and Evelyn Sanders; Namekoni township, William Powell, William Kirchner and Mrs. William Ziegler; and Chouteau township, John Schar, Ben W. Eberhardt and Irvin Patrick.

These boards will function only in the parts of their townships lying outside of incorporated municipalities.

In addition to the responsibility of rationing in accordance with OPM regulations, they are also to be part of the county civilian defense council for protection of rural settlements.

A cablegram has been received by Mrs. B. J. Jones, 2514 Madison avenue, telling of the safe arrival of her niece, Miss Muriel Sullivan of England, at the Malay Straits Hospital at Singapore. Miss Sullivan, whose home is in London, is one of the head nurses at the hospital and returned to duty there after a tour just prior to the bombing by the Japanese.

A huge oil tank rolled into Madison avenue from the filling

station lot of the Lewis Oil Co., 2323 Madison avenue, and nearly caused an accident.

Enrollment of students for the regular night school classes will be taken, it was announced by Supt. Paul A. Grigby. Many school subjects will be taught, depending upon the enrollment in each class.

Mc and Mrs. A. E. Bahill of Edwardsville road entertained guests at a New Year's dinner in their home.

Those present were Mr. and Mrs. E. F. Vincent and children and Mrs. Leah Vincent of St. Louis, John Kays of Fairfield, Ill., and Mrs. Leon Scherff and son, Jimmy, of Granite City.

A one-gallon, nickel-plated reserve oil can fell off a fire engine in the downtown district and was lost. Fire Chief Louis Kays asked that the finder return it to one of the two fire stations.

A group of young people were entertained at a holiday dance at the home of Mr. and Mrs. Walter Pershall, 1306 Twenty-seventh street.

Meeting in special session, the Community high school board approved a budget for the coming year of \$5000 for all its employees. "To meet some of the income tax bills," said the board. Hoelscher is president of the board.

Grassroots Government

This week's meetings of Quad-City taxing agencies:

Namekoni Town Bd.	7:00 p.m., Tues., Jan. 3	Town Hall
Venice School Bd.	7:30 p.m., Tues., Jan. 3	Board Office
GC City Council	8:00 p.m., Tues., Jan. 3	City Hall
Levee Bd.	8:00 a.m., Wed., Jan. 4	Levee Office
Venice Council	8:00 p.m., Fri., Jan. 6	City Hall

General-purpose local government were said to be the most prominent governing units for reform. Boundary modifications were urged, with overlapping taxing bodies consolidated. Chicago and Cook county were viewed as presenting special problems requiring a different solution.

County Redistricting
Under the leadership of President William H. Kufuss, the IAA has acted on these reports by launching a campaign of support, the districts from which members of county boards of supervisors are elected.

The campaign assumes that county board redistricting is inevitable. The drive is intended to encourage the Illinois legislature to carry out the task before courts do it.

A July 1966 decision of Circuit Judge William C. Calvin of Clinton held invalid the Illinois statute governing the election of members of the DeWitt county board.

A later decision of the Illinois Supreme Court could result in at-large election of members of county boards, or in court reorganization.

However, there is some concern that the campaign may prove to be too effective, achieving what the state constitution has intended by providing for new county board representation but missing an opportunity to include more sweeping improvement and modernization.

Local-Level Taxing Bodies a Major Concern of State Governments and Illinois Has Biggest Worry-It Leads U. S. With 6452 Such Agencies

(Eighth of a series)
(Press-Record editorial analysis)

Governmental reorganization and modernization at virtually any level is a major concern of state governments.

States are directly involved in their own procedures, and also are immediately affected by changes at the federal level.

All local governmental agencies—cities, school districts, townships, village boards, etc.—are "creatures of the state," deriving their powers solely from those granted by the state government.

Among those speaking out on this general topic in Illinois in recent weeks have been the top state official, Gov. Otto Kerner, and Robert Steadman, director of the Improvement of Management in Government Division of the Committee for Economic Development.

Gov. Kerner, in an address to a conference sponsored by the Illinois Municipal League, Illinois Liquor Control Commission and Association of County Officials, noted that "for the first time, the governor of Illinois has a department which will be his eyes and ears for municipal affairs."

He referred to the formation in 1960 of a unit intended to help the state's local governments, cities, counties and other agencies. It will deal solely with local government affairs.

State Services Not Used
The governor said he feels there has not been as much demand for its services as war-

rented by the needs of the governmental bodies, but that the program probably will be accelerated with the addition to his staff of Sam Eubanks of Belleville.

He said Eubanks will hold "an administrative post with the primary aim of serving local governments at every level."

Eubanks was a teacher at the Belleville Junior College before joining Gov. Kerner's staff.

"Many towns do not have the money or facilities to investigate and carry out programs beneficial to their communities," the governor said.

"I have created a department which will help achieve for local governments a more aggressive voice in their affairs."

Funds Available
He commented that there are state and federal funds available for use by cities for specific purposes, and that such funds may be obtained by cities through proper state agency, making the necessary application and doing other paper work.

He said the new state department is to act as advisor to local governmental units which want information on changes of property assessment procedures, tax revenue, etc.

There are state aids available for local governments in the fields of housing, urban renewal, local skilled and unskilled labor, and studies in the areas of government with the legal powers, geographic jurisdiction and independent revenue

Gov. Kerner has told Eubanks to "feel that the needs of cities from one end of Illinois to the other."

The new staff assistant has just that he spends much of his time traveling to various cities at their request.

Define State Role
In asserting that the office should be used more, Gov. Kerner said:

"If we advertised this new agency of ours, we'd get more requests for service; for instance, from more cities, more counties, more townships, just what our office for local affairs can do for a city or a county."

"It's your agency," he told mayors and chairmen of county boards of supervisors at the conference, "use it more and use it often."

The governor feels the Eubanks office is a means of defining the state's role in government.

Eliminate Overlapping
Steadman takes the position that more drastic steps than these are warranted.

Speaking to a conference on local government at the 32nd annual meeting of the Illinois Association of County Officials, he said local-level agencies will soon be "counted out" unless they are thoroughly reorganized.

"Most American communities are suffering from a lack of government with the legal powers, geographic jurisdiction and independent revenue

City Clean Air Board to Study GC Steel's Plan

Further continuance of a hearing scheduled tomorrow on pollution charges involving alleged hydrogen-sulfide emissions by Granite City Steel Co. will be requested by Henry Bieniecki, chairman of the Granite City Air Pollution Board. Bieniecki said the request for the postponement will be made of Burton C. Bernard, attorney member and hearing chairman of the Granite City board.

Bieniecki said the request results from a proposal by Granite City Steel Co. for installation of a double "back-up" system for igniting the hydrogen-sulfide vent stack in the coke oven of the steel company's blast furnace department. The air pollution board needs time to study the proposal before continuing hearings, Bieniecki said.

The board opened the hearing last Nov. 2 on a complaint against Granite City Steel Co. The session was postponed until Jan. 4 (tomorrow) to give the company an opportunity to study reports of the St. Louis Testing Laboratory on which the complaint was based.

Further action in the case will be studied by the board in its regular meeting Jan. 11, Bieniecki said.

Mrs. Leola Abel, 64, Dies Today at Hospital

Mrs. Leola L. Abel, 64, of 4117 (rear) Breckenridge lane, a local resident for more than 40 years, succumbed to an apparent heart ailment at 3 a.m. today at St. Elizabeth Hospital, where she had been admitted just two hours earlier.

Prior to becoming ill about two years ago, Mrs. Abel had been an active member of New Hope Chapter 422, Order of the Eastern Star, and in women's groups at the Central Christian Church. She also was a member of Ann Rutledge Rebekah Lodge of Nameoki and the Auxiliary of Veterans of Foreign Wars, Post 1290. She was born in Louisiana.

Surviving are her husband, Orville R. Abel; one son, Robert Abel of Granite City; three sisters, Mrs. Vera Schillinger of Granite City, Mrs. Edna Thrash of Tolono, Ill., and Mrs. Irene Ikemire of Louisville, Ill.; and two grandchildren.

Funeral arrangements are given in today's obituary column.

Mrs. Mary Kreft, 78, Found Dead at Home

Mrs. Mary Kreft, 78, of 807 Kirkpatrick Homes, who had been in ill health for three years, collapsed and died at her home Thursday. She was pronounced dead at the scene at 5:45 p.m. by Deputy Coroner Robert Thomas, who told police that death probably occurred several hours earlier.

Mrs. Kreft was found about 9:30 p.m. by her grandson, Harry Hillman, 2324 O'Hare avenue, who summoned the fire department's inhalator crew.

A native of South Wales, she had resided in Granite City for 62 years. Mrs. Kreft was a member of the Eagles Auxiliary. Her husband, Harry Kreft, died in 1959.

Surviving are a daughter, Mrs. Violet Hillman of Granite City; a sister, Mrs. Lottie Miner of Granite City; three grandchildren and six great-grandchildren.

Funeral services were held Saturday. Details are given in today's obituary column.

GC Steel Sets Safety Record in Past Year

An all-time safety record with less than two disabling injuries per million man hours worked was set by Granite City Steel Co. during 1966, it was announced by L. C. Parker, safety director.

The company's 5600 employees worked one million consecutive man hours without a disabling injury three times during the year, Parker said.

Records showed the employees were safer at work than at home. Only 20 employees were involved in the job injuries classified as disabling and serious enough to keep them from work one or more days.

In contrast, 170 employees suffered disabling injuries outside the plant. Of these, 79 occurred in the home, and 91 involved auto accidents. Five fatalities occurred among employees outside the plant. There was none among the in-plant total.

25th Crossing Blocked

A train blocked the 25th street crossing for a half-hour, police were informed at 9:45 a.m. Saturday. It had left when they reached the crossing.

Car Hits Plant Fence

An auto struck the fence at the Granite City Steel Co. Blast Furnace Division, Route 162, at 4:15 p.m. Friday and then left the scene of the crash.

Bartylak Restores Funds of Estate, Leaves Hospital

Former Madison County State's Attorney Joseph R. Bartylak, whose resignation took effect Sunday, deposited a check for \$1221 with Chief Circuit Judge Joseph J. Barr Thursday afternoon as the amount due his daughter Patricia E. Shaffer, trustee of Kathleen Shea, his daughter and a minor.

Bartylak, who had been a patient in the Reardon division of Barnes Hospital, St. Louis, since Sept. 26, was released from the hospital on Thursday and appeared in court with attorneys Lance Callis of Granite City, former state's attorney Dick H. Edge of Edwardsville and John Glick of Madison.

A writ of attachment against Bartylak, ordering his arrest as seen as he left the hospital and returned to the county, was stayed by Judge Barr. He was asked to appear in the circuit court on Jan. 11, if Streeter, who had ordered the writ.

The stay, to be in effect until further order of the court, permitted Bartylak to remain free during the New Year holidays, as court did not convene until Jan. 9.

Jan. 5, 9 Appearances
Judge Streeter had ordered Bartylak to appear in court on or before this Thursday to make an accounting of funds belonging to the Shea girl in a trust which Bartylak, as a private attorney, represented since July 1956.

Judge Streeter said he may still call Bartylak into court Thursday to answer further questions.

The writ of attachment was ordered after Bartylak failed to appear in court to answer questions regarding the estate of the late William H. Becker of Collinsville dating back to 1963. Bartylak several days later turned over \$5000 to the estate, the amount due from the sale of property.

The associate circuit judge said he may also call Bartylak into court on Jan. 9 in regard to estates of the late William H. Wille, attorney and Lucille Wille of Collinsville, which he handled as a private attorney.

The Illinois State Bar Association recently announced plans to send a special investigator to Madison county to study Bartylak's actions as a private attorney and make a public report.

The \$1321 paid Thursday consisted of \$916 plus interest covering a 10-year period. He received \$2061 for the guardian of the 15-year-old Okawville, Ill. girl, and listed \$1145 in expenditures.

Shea had contended Bartylak failed to deposit \$2061 in the guardianship account. The money was awarded the girl as a personal injury settlement in 1956, when she was five years old.

Major withdrawals from the account were listed as funds turned over to the girl's father for her care, and Bartylak received \$285 from the account for his fees and expenses. His report Thursday said each withdrawal was approved by court order.

Madison Avenue Speed Crackdown Nets Six

Six Quad-Cityans were issued arrest tickets by Granite City police yesterday morning on Madison avenue and are to appear in magistrate's court by Jan. 19.

Booked for speeding at 1700 Madison avenue were Albert Zaringer of 3230 Willow avenue, Rosita Helges of 3201 Rodger avenue.

Issued tickets at 2200 Madison avenue were Benny W. Johnson of 2335 East 28th street; Louie A. Crook of 2009 Edwardsville road, Madison, and Fina P. Rainwater, of 84 Greener Homes, Madison. Jimmy M. Pagan of 5445 Maryville road, was charged with speeding at 2900 Madison avenue.

Arrested on Warrant

Dispatched to 1734 Edison avenue at 1 p.m. Sunday to answer a disturbance, police arrested David Cox, 21, of 3279 Westchester drive on a warrant charging reckless conduct. Complaint was listed as James Huddleston Cox was released at 2:25 p.m. Sunday on \$100 cash bond to return for a hearing.

Speeding Charges

Speeding charges were filed by Granite City police against Patricia D. Parrish, Route Four, Edwardsville, early Monday.

Daniel W. Roberson, 612 East Chain of Rocks road, and William A. Copeland, 1947 Delmar avenue, on Sunday.

Auto Damages Pole

An Illinois Power Co. pole was damaged by an auto near the front of Granite City high school, police were informed at 7 a.m. Saturday.

Hit-Run Collision

A southbound hit-and-run car damaged the left side of a parked auto of Orville Dougherty, 2921 Buxton avenue, at that address about 1:30 a.m. Sunday.

Scroggins Will Study Reduction of Charges

Madison County State's Attorney Leon Scroggins said Friday he will review the case of a union man who has accused reduction of charges against men who allegedly beat him June 13 in Wood River.

Pete Kladar, 40, the hearing victim, says he was not called to testify nor was he told when judicial action was to be taken against Terry Thwaitt, 38, and Jim Stanley, 32, of the Quad-City area.

Original charges of aggravated battery were reduced on the motion of Assistant State's Attorney John T. Roach of Alton, and the two pleaded guilty to disorderly conduct Dec. 28, being fined \$100 each plus court costs by Magistrate Joseph Kelleher Jr. in Edwardsville.

Scroggins said Roach never discussed the cases with him prior to their disposition. He added that he has now requested and received all files of the case, and talked with Kladar Thursday. The state's attorney noted that double jeopardy in the case must be avoided.

Kladar says the attack followed a Carpenters Local 1808 meeting at which he was a candidate for the presidency. Kelleher, on Roach's motion, last week dismissed a charge of solicitation of battery against Bill Boland, a union business agent.

Jr. College Hearing Set Wednesday Night

A public hearing on the proposed establishment of a junior college district composed of Madison and Jersey counties and parts of six adjoining counties was held at 7:30 p.m. Wednesday at the Edwardsville Junior high school.

The hearing was called by William Trimpe, Madison county superintendent of schools, to determine support or objections to the district. Results will be forwarded to the Illinois Junior College Board which may approve a call for a referendum.

Nameoki-Pershing Crash

As Raymond Gilmore, 1303 Kirkpatrick Homes, was backing his car from a lot at Pershing avenue and Nameoki road at 6:30 p.m. Friday, it met the right rear of the northbound auto of Gary Linger, Collinsville.

The crash resulted in the death of Gary Linger, 32, of Collinsville.

The crash occurred at the intersection of Pershing avenue and Nameoki road at 6:30 p.m. Friday.

Capt. Shuppert, Family Leaving for Air Base

Capt. Ben Shuppert, who has been visiting his wife and family at 2322 Dwan place after returning recently from the Takhli Royal Thai Air Force base in Thailand, is to leave tomorrow with his family for a new assignment at Air Defense Command headquarters at Ent Air Force Base, Colorado Springs, Colo.

He was notified in December that he will be promoted to the rank of major in the near future. In Southeast Asia he was assigned to the 350th Tactical Fighter Wing. He is the son of Mr. and Mrs. St. Clair Shuppert, 42 Moorland drive, Mitchell.

He was notified in December that he will be promoted to the rank of major in the near future. In Southeast Asia he was assigned to the 350th Tactical Fighter Wing. He is the son of Mr. and Mrs. St. Clair Shuppert, 42 Moorland drive, Mitchell.

Pete Mezzano, Local Stevedorker, Buried

Pete Mezzano, 51, of 712 Kepler street, Collinsville, a Granite City Steel Co. oiler employed there 19 years, was buried at Sunset Hill Cemetery Saturday following funeral services at St. John's Pleasant Ridge Lutheran Church.

Mr. Mezzano died Dec. 28 following a two-month illness. A veteran of world war II, he was a member of the American Legion and United Steelworkers. Survivors are his wife, Jueta, a daughter, Rosemary, his mother, Mrs. Mary Mezzano, and a sister, Mrs. Esther Wyatt, all of the Collinsville area.

He was notified in December that he will be promoted to the rank of major in the near future. In Southeast Asia he was assigned to the 350th Tactical Fighter Wing. He is the son of Mr. and Mrs. St. Clair Shuppert, 42 Moorland drive, Mitchell.

Business Review and Forecast

An Evaluation of 1966 and ...

Prospects for 1967

Further economic growth in 1967—but possibly at a slower upward rate than in 1966—is foreseen by Quad-City area industrial, financial, commercial, planning and development leaders participating in the 14th annual Press-Record Business Review and Forecast.

Favorable factors cited include this community's many assets—its proximity to markets and raw materials, its convenient links to all types of transportation and utilities, its pool of skilled and semi-skilled manpower, its increasing manufacturing and fabricating diversification, its high level of citizenship and one of the world's largest reservoirs of flood-protected plant sites offering stabilized lease or acquisition cost.

Cautions voiced are the national inflation and tax outlook, and intense domestic and foreign

competition in quality and productivity. Efforts are urged to meet the demand for more homes, sewers, apartments, parking, university additions, retail services and traffic arteries and connections.

Among the specific gains that 1967 will bring are completion of the east Granite City Steel Co. expansion as well as American Steel Foundries improvements, easing of the construction labor supply, expanded gas, telephone and electric facilities, greatly increased research and development activity by several firms, further canal locks refinements, Dorr Chemical Co. rail car plates and extrusion production, Nestle Co. and Reilly Tar & Chemical Co. expansions and southward extension of the Great River Road into the heart of the Quad-Cities.

In summary, it is expected to be a "good" to "excellent" year, with confidence somewhat greater for the first half than the second half.

A. O. Smith Corporation

By Paul J. Kemp, Plant Manager

A slowing of the general economic pace in 1966 had its effect on the auto industry and, in particular, on the Granite City operations of A. O. Smith Corporation.

The much publicized "light credit—tight money" situation was believed to have caused automobile sales to decline from the high level of 1965 and even early 1966.

Also probably lost as potential new car buyers were the many young men in our military service or those who were anticipating military service.

Despite the notoriety given the decline in automobile production, domestic passenger car sales for the calendar year 1966 were about 8.5 million units—a level second only to record 1965.

A. O. Smith's Granite City plant, where the frames are produced for Chevrolet, began to sense the slowdown in the economy in the late spring when new car sales did not meet the forecasts upon which production schedules had been based.

Smooth Changeover

As a result, A. O. Smith's annual auto changeover—that period of time when manufacturing equipment is converted for the production of new model frames—was extended beyond its normal duration. The changeover itself went smoothly.

Production of 1967 model frames started off at a fast pace, but before long there was evidence that the factors which had affected auto sales in the spring were still with the industry.

By late September, it was necessary to reduce A. O. Smith's operations at Granite City from four production lines to three in order to keep inventories in line with customer demands. This meant a layoff of about 250 em-

ployees from our normal employment of about 1800 persons. Further affecting A. O. Smith's Granite City operations during the year was a three-week strike at the St. Louis plant of Chevrolet. It was necessary to halt production of Corvette frames during this period—resulting in a temporary layoff for 65 additional persons.

Future Outlook

There is every indication that competition among automobile frame suppliers will become even more keen within the next year or so.

New competitors' plants—either completed or in stages of construction—are vying for larger shares of the market.

Output of the Granite City plant in the months to come will depend greatly on the nation's economic condition. The credit situation, taxes and the war in Vietnam will undoubtedly have an effect on the mood of the buying public.

General Steel Industries

By W. Ashley Gray Jr., President

General Steel Industries enjoyed a good year during 1966, a year especially important because of the progress made in the Castings Division at Granite City.

In late 1965 we initiated here a program entitled "It Can Be Done" to let everyone associated with the plant know that it faces serious competitive problems and that better productivity and improved efficiency are needed.

Now, a year later, important progress has been made toward these goals.

Quality, Efficiency

Under the leadership of D. J. Davis, vice-president and general manager, and Thomas Ditchfield, works manager, and their management team, the employees of this plant made a strong and successful effort to assure production of top-quality castings with on-time delivery.

The need to sharpen efficiency and maintain high quality is by no means gone; competition—both domestic and foreign—continues to be a serious problem. And in the engineering and production of the kind of cast steel products manufactured at the Granite City plant for railroads and industry, quality has to be planned and built into the product all along the line.

Under the leadership of D. J. Davis, vice-president and general manager, and Thomas Ditchfield, works manager, and their management team, the employees of this plant made a strong and successful effort to assure production of top-quality castings with on-time delivery.

The year 1966 has been in many ways a turn-around year for GSI, and the role played by the Castings Division in heading the company in a stronger direction has been and will continue to be very important.

Production should continue at the Division at a good rate

through most of 1967. Suspension of the 7% investment tax credit by Congressional action last fall will have some effect on orders. It is, however, too early to be definite about the outlook for 1967, since the full effect of the tax credit suspension and adjustments in the economy is not yet known.

New Outlook, Plants

General Steel Industries, Inc., in most of its other divisions also experienced a busy and generally productive year in 1966.

Late in the year, Standard Pipe Protection Division was assuming control of the facilities of Pipe Protection Service, Inc., Kearny, N. J., which will become an important East Coast outlet for its products.

Two new plants were constructed, one in West Virginia and one in Canada, for Flex-O-Lite Division, which is experiencing rapid growth as the demand for both reflective and industrial glass beads increases domestically and abroad.

Another St. Louis-based plant, Ludlow-Saylor Wire Cloth Division, also enjoyed high levels of production.

Roll Production

National Roll Division, Avonmore, Pa., is planning major improvements in the coming year to complete a program that will enable this leading iron and steel roll producer to manufacture the complete range of rolls required by steel mills.

National R-11 has developed during its past decade as an important unit of GSI and we are highly optimistic about its growing position as a leading supplier of essential rolls for steel mills.

As basic steel builds new facilities and modernizes existing ones, the need for cast steel trucks produced by the Castings Division should increase along with the need for additional cars.

GSI in 1966 has shown substantial improvement in earnings over 1965.

With the continued cooperation of our fine management team and employees, especially as demonstrated during 1966 by the Castings Division, I am confident the company will continue to be a strong factor in all its markets through all six divisions with operations in six states and Canada to find other products and

National Lead Company

By Lawrence F. Gerst, General Superintendent

Local business during 1966, for the most part, has been satisfactory. Volume has increased. However, the lead industry was subjected to two price reductions during the year.

As with industry in general, the cost of doing business has gone up due to increased cost in raw materials, labor, warehousing and transportation.

Part of the increase in volume resulted from a greater demand for ammunition as well as other industrial lead items used in the Vietnam war effort.

More Hunters, Sportsmen Normal expansion in such items as shot for hunters and sportsmen also contributed to the increase. Shooting clubs are growing in numbers at a rate which will make them an extremely popular recreational outlet.

Over the past 20 years, the number of sportsmen interested in shooting has doubled.

Research and development has been an important factor in the growth of National Lead Company, which now operates more than 100 plants in the United States. Plants are also located in 15 other countries throughout the world.

This activity is now organized on a divisional basis with 17 laboratories and over 600 chemists, physicists and other technically trained personnel.

Expenditures for research and development have more than doubled in the last decade.

Optimism for 1967 The generally favorable economic conditions that prevailed during 1966 should carry over into 1967.

The outlook for the year is optimistic, although somewhat tempered by the uncertainty of the situation in Vietnam and the company's general situation in the economy and abroad.

These products are used by a large and varied group of manufacturers in order to build that can be manufactured at this facility.

This Division has had to learn new skills in order to build equipment based on new designs and the use of new types of materials.

Rapid Transit We continue to be optimistic about the longer-range outlook for rapid transit products because of the solution to mounting traffic congestion in cities throughout America lies in balancing transportation modes, with rail rapid transit important among them.

As the demand for transit products grows in future years, the need for cast steel trucks produced by the Castings Division should increase along with the need for additional cars.

GSI in 1966 has shown substantial improvement in earnings over 1965.

With the continued cooperation of our fine management team and employees, especially as demonstrated during 1966 by the Castings Division, I am confident the company will continue to be a strong factor in all its markets through all six divisions with operations in six states and Canada to find other products and

Granite City Steel Company

By Nicholas P. Veeder, Board Chairman & President

Nineteen sixty-six was a generally good year for our company. It was the third consecutive year we have shipped more than one million tons of Granite City Steel's flat-rolled products to steel users throughout the Midwest, South and Southwest.

There was real progress on our new facilities. Employment was at a high level.

\$50 Million Payroll We paid out well over \$50,000,000 in wages, salaries and benefits to our own employees during 1966 and other millions to the large number of construction workers employed by the contractors building our new facilities.

More than half of our direct and indirect payroll expenditures went to residents of the Quad-Cities. About 3000 of our own employees live in this area and make up so many of the construction workers.

Business has slackened off in the last two months although we have continued to operate at a fairly high rate in anticipation of a pickup in demand in January. The steel business should be beat-good during the first quarter of 1967.

Past that, the outlook is somewhat uncertain although the ply of skilled labor, abundant waste steel industry's long-range prospect, appear to be excellent.

And we are not just modernizing our plant. We are expanding steel consumption in the United States has advanced more and becoming a stronger, larger than a third in the last four years.

1967—Memorable Year The coming year should be a steel mill in the world and to sell memorable one for Granite City Steel.

We will complete three major new facilities in the last few years. Even with our costly new program of expansion and modernization in the company's history, must continue to stand up to the end of the second quarter of women of Granite City Steel understand the intense competition we face and work as a team for the first half of the year, and every job.

90% Smoke Elimination The BOF plant will replace our old blast furnace and the orange-colored smoke which has been associated with our steel-making will be more than 90% eliminated by a \$3,500,000 gas cooling and cleaning system which is part of the BOF plant. The Quad-Cities have a prime rate in anticipation of the construction of a new steel mill in the Midwest. This area cannot be beat-good during the first quarter of 1967.

Past that, the outlook is somewhat uncertain although the ply of skilled labor, abundant waste steel industry's long-range prospect, appear to be excellent.

And we are not just modernizing our plant. We are expanding steel consumption in the United States has advanced more and becoming a stronger, larger than a third in the last four years.

1967—Memorable Year The coming year should be a steel mill in the world and to sell memorable one for Granite City Steel.

We will complete three major new facilities in the last few years. Even with our costly new program of expansion and modernization in the company's history, must continue to stand up to the end of the second quarter of women of Granite City Steel understand the intense competition we face and work as a team for the first half of the year, and every job.

Madison County Zoning Board of Appeals

By Howard W. Kaseberg, Chairman

During 1966 the Madison County Zoning Board of Appeals conducted a total of 207 hearings for zoning changes, variations and special use permits.

Also during the year, several major changes were made in the zoning ordinance itself which will make it more workable, more effective and more easily enforced.

As Madison county completes its fourth year under zoning, a trend toward a more orderly growth of the county is evident.

Subdivisions are being standardized as far as land use requirements are concerned, shopping centers and other planned developments are being built in more advantageous locations, and undesirable businesses and industries are either being disallowed or located where they will have the least damaging effect on the land values of the county.

It is anticipated that during 1967 there will be an increased number of requests for zoning changes as the communities of our county continue their rapid growth.

Municipal Zoning

It is with the advantages of county zoning will soon become so evident that communities which do not presently have zoning will adopt ordinances of their own.

will very shortly make all areas of the county accessible in a matter of minutes to the industrial complex in the Tri-Cities area and along the river.

For this reason, if for no other, we need area-wide planning and zoning to forestall the imposition of federal assistance in shaping our future.

Development Prospects The year 1967 will see great things made in the overall development of land use in the Tri-Cities area of the county.

New industry will enter our community; new shopping centers will be established; various apartment projects are now under way and will soon be completed; and the new Edwardsville campus of Southern Illinois University will have beneficial effects upon our community.

These are only a few of the many tangible effects of zoning and regional planning which during the year ahead will make our metro area a better place in which to work, play and live—a home of which we can be justly proud.

Granite City Trust & Savings Bank

By Ernest A. Karandjoff, President

The economic outlook for the Tri-Cities in 1967 is excellent.

Our plans are busy, our merchants prosperous, our financial institutions growing. And our people are enjoying a prosperity and standard of living unmatched in history.

On the national scene, the outlook is more clouded. Business activity is strong, but not growing at the rate we have enjoyed in the past several years. Inflation is robbing us of our purchasing power.

Consumer spending is not increasing as fast as in the past and the rate of savings has decreased.

Defense Spending Federal spending for defense has increased with the escalation of the war in Vietnam.

This increase—added to great expenditures by state and local governments—has more than offset the decline in spending for residential construction and the country, we will surely prosper.

decline in inventories which has taken place.

It is expected that wages and supplementary payments will increase during the year. If productivity holds pace with this increase, no great ill to our economy should result.

Economic Growth in 1967 While many are pointing to our weaknesses and expecting recession in 1967, we cannot agree. Our reasons are that federal spending will continue to increase and business capital outlays are expected to continue to grow, as will consumer expenditures.

We must conclude that we will have a real growth in our economy, in addition to the inflation, which will keep us from recession.

With faith in ourselves and our country, we will surely prosper.

Business Review and Forecast

Associated Retailers & Civic Association

By Morris Helman, President

Beginning with the 1960s, America has been undergoing a social revolution. The American standard of living has risen immeasurably.

The average consumer is better educated, more financially stable and infinitely more sophisticated.

Retailing, too, particularly in the apparel field, is undergoing a great change.

Exciting new fabrics and styles have developed, with many more to be introduced in the near future.

Today most fabrics are machine washable. Many are permanently pressed. All are lightweight.

More Casual Way of Life

Fabrics point toward the more casual way of life that has developed in our country. Such a trend, particularly for merchants gain of 3.8% for the three months which will appear in the "Sports" category, should provide a stimulus for an active retail appearance to have become more cautious in their purchasing.

Retailers who feature merchandise useful in an active outdoor life will also benefit from this growing trend toward the "relaxed" life with more free time.

Nineteen sixty-six, however, was a very trying year. In November, Mr. Morton May of the May Department Stores reported performance of the stock market a decrease of 9.5% on a sales ket.

The SIU report given at a meeting here in September was most enlightening. Attendance at the meeting was gratifying, with the mayor and all city councilmen attending.

Serious Need for Parking

One of the major points brought to light was that most retail businesses in Granite City are hampered by a lack of properly placed parking facilities.

When our shopping area was built, some time ago, parking areas were placed "around" the area. This concept is now obsolete.

Modern shopping areas have proven that parking is more desirable adjacent to the store in which the shopping is done.

The city council of Granite City can perform a vast service for the business community by beginning now to select parking sites adjacent, or at least close, to our retail stores.

With fast action by our city council, which can draw upon their resources for urban development, a meaningful "shot in the arm" is given to the city's retailers, at the same time making shopping more pleasant and convenient for the consumers in our city.

We sincerely hope that a start can be made toward solving our parking problem in 1967.

Madison County Farm Advisor

By Warren W. Bundy, Farm Advisor

Fewer but larger farms, higher investment per farm, and more specialization—with an increasingly higher payoff for skilled operators and farm management—are trends expected to continue in agriculture.

Annual gross value of farm production in Madison county is about \$25 million. Census figures indicate 2312 farms in Madison county, so gross income per farm averages about \$10,800.

Out of that gross income must be paid all farm expenses—machinery, equipment, seed, fertilizer, gasoline, lubricants, herbicides, insecticides, buildings, taxes, insurance and many other items.

The amount left after expenses is represented by the net income on which the farm family must live and from which money must come for expansion of the farm business.

Average Farm Hard-Pressed

A general rule of thumb is that a minimum of \$10,000 annual gross production is needed, on a one-man farm for the farm family to expand its business.

Increases in prices of farm machinery, fertilizers and pesticides have offset by increased production per man. Based on the 1957-59 average, it is easy to see the average of 100%, today's farm press that is on the average output per manhour is now over 195%.

American Steel Foundries

By A. P. Steinhilber, Works Manager

In 1966, for the third consecutive year, the Granite City plant of American Steel Foundries has a record for steel casting shipments.

This record performance, achieved in the fiscal year ended Sept. 30, 1966, reflects continuing strong demand for ASF products from the nation's principal customers.

The Granite City plant is a major producer of side frames and bolsters for freight cars.

During the past fiscal year, the railroads ordered 108,000 new freight cars nationally, an increase of 20,000 over last year.

Approximately 90,000 freight cars were built, a 25% increase from 72,000 in 1965.

The program to upgrade the nation's freight car fleet is continuing at record levels.

ASF's major castings, side frames, a new water spray cooling station, and a monorail shot blast machine.

182 Record Broken

A 43-year-old record was broken during the week of Nov. 7 when the plant recorded 76 heats in two consecutive days.

Former record, set in 1923, was accomplished with four furnaces. The goal is now 14 heats daily in an effort to meet the urgent demand for ASF products.

No slowdown is anticipated in the early months of 1967, and all indications point to another excellent year.

ASF's major capital improvement program at the Granite City plant is now 95% complete.

New Equipment

Included in this program are a newly-installed shakeout unit to

initially clean castings as they move to the finish production line, a new water spray cooling station, and a monorail shot blast machine.

The efficiency resulting from these improvements will enable ASF to better meet customer demand.

service, ASF will continue its role as a substantial employer in the Granite City area.

During the 1966 fiscal year, the plant averaged 1464 employees, up from 1360 in 1965, and a sharp increase from 685 in 1963.

In 1966, the ASF plant paid \$10,800,000 to employees in wages and salaries, up from \$8,780,000 a year ago.

The company entered into the second year of three-year agreements with the United Steelworkers of America and the Patternmakers League of North America.

New agreements were signed with the International Brotherhood of Electrical Workers and the International Association of Machinists and Aerospace Workers of America.

All of these agreements reflect substantial wage increases and outstanding insurance and pension benefits.

Research, Development

ASF's efforts in research and development continued to pay dividends during the past year.

The ASF Six-Wheel Truck has won wider acceptance for use on heavy, specialized freight cars.

Stuffer Chemical Co., Houston, Texas has specified ASF Six-Wheel Trucks for its new fleet of tank cars, each having a capacity of 150 tons.

ASF trucks remain the standard of the industry on the 70- to 100-ton freight cars because of their built-in stamina and soft ride.

The Dow Chemical Company Madison Plant

By Gerhard Ansel, Plant Manager

The Madison Division of The Dow Chemical Company has operated at close to capacity level during 1966, with increased activity in products for both the commercial and military markets.

Markets for magnesium rolled and extruded products produced at Madison included luggage, portable military shelters, engraving sheet and roofing plate.

Our aluminum mill products went into such items as military vehicles, aircraft landing mats, and Boeing 727 jet aircraft.

Railroad Car Products

During 1966, Madison also produced aluminum plate and extrusions which were used in the fabrication of 220 open hopper railroad cars.

These open hopper cars, with individual load-carrying capacity of 110 tons, have very promising potential application in unit coal train operations and should represent a sizable future market for our products.

Initial production began on high-strength extrusions for the main structural members of the new Boeing 747 airplane.

These extrusions will be shipped from Madison to the West Coast in record lengths of 165 feet. Extensive equipment modifications were required to produce material to this length.

A new high-speed, 1800-ton extrusion press to serve commercial markets was installed in the summer of 1966.

All Aluminum Rolling Here

With the sale of its Jackson, Mich., plant, Dow consolidated all aluminum rolling mill operations at the Madison Plant during the fall of 1966.

We anticipate generally good business levels at least for the first half of 1967.

However, markets for commercial rolled and extruded products, especially those used by the building industry, will continue to be extremely competitive.

165-Foot Plate Extrusions

During the final weeks of 1966,

Illinois Power Company

By Carl E. Mathias, Service Area Manager

Economists generally agree that 1967 will be a good year. The Tri-Cities area will be no exception, for there are healthy indicators that we will be a prosperous community in the year ahead.

Examples are the pace of industrial expansion projects and the welcome growth in commercial business activity, such as the National Grocery installation and several drive-in additions.

Expansion in this class of activity should be accelerated to provide the services needed by our community.

Completion of the shopping survey could lead to further small business development, but this is yet to be determined.

Highway, SIU Progress

The start of construction of the extension of Highway 151 is an other favorable factor, inasmuch as it will improve the traffic flow to and from our community with some implementation.

Too, the SIU Campus at Edwardsville will continue to grow for many years. The additional students and faculty will have a growth in several plants in the Tri-Cities make up a major share of this expenditure in the area.

Electric, Gas Expansion

In any event, our company plans to make large expenditures of our electric and gas facilities in order to continue serving customers in the best manner possible.

The air-conditioning requirements which we met during the record heat wave of 1966 established demands on our system which far exceeded the normal growth pattern.

In order to meet expected further increases in this load, as well as normal growth in industrial, commercial and general residential demands, we will increase the capacity of many of our electric facilities in 1967.

The activity of the Tri-Cities area, coupled with a widespread shortage of skilled manpower, has created a tremendous workload on scores of companies, including Illinois Power Company.

It is always advantageous both to our customers and our company when we receive all possible advance notice of services they desire.

This is especially true now, and will continue to be the case in the months ahead.

Illinois Metro-East

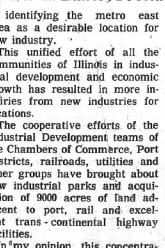

By Chester L. Baker, President

The Tri-Cities and the Illinois of identifying the metro east area can certainly area as a desirable location for look forward to good economic growth in 1967.

Several factors are contributing to the area's progress. The first factor and one having an immediate impact on the area is the expansion of existing locations.

The cooperative efforts of the major industries throughout the area. Over one-quarter-billion dollars is now being spent for expansion of plants in Illinois metro east. New industrial facilities underway in several plants in the Tri-Cities make up a major share of this expenditure in the area.

Another important factor is the awareness of the leaders in the communities of the importance of celebrating growth in 1967.

This unified effort of all the communities of Illinois in industrial development and economic growth has resulted in more inquiries from new industries for the area.

The Nestle Company, Inc.

Business Review and Forecast

Reilly Tar & Chemical Corporation

By Kenneth J. Morrison, Plant Manager

Any economic forecast for any office, business or plant within this area must certainly take into account the employees, which keep it functioning.

Loyal, reliable and cooperative employees are an essential aspect to any business which will flourish and prosper. Without them, a business may persevere for a time, but it is predestined for failure.

The Granite City plant of Reilly Tar & Chemical Corp., a national concern, has been abundantly favored with the type of employee which is necessary for that segment of the business and to make it a progressive and growing concern.

Having achieved somewhat over 25 years of service to the Granite City plant, I feel it my prerogative to ramble somewhat through those years and share with the reader's attention some of the people with whom I have had the privilege of cooperating.

National Consultant
Back in 1941, when I started working at the Granite City plant, a fellow by the name of Mr. Goodman was plant superintendent (at that time we felt about the Mr. Goodman, who was not only a good manager, but also a good friend). Through the passage of years he has continued to expand into one of the dynamic forces within our company. While still located at the Granite City office, he now serves our company on a national consultant basis.

At that time, the fellow I went to work for was Ernie Rouland. He was the chemist for the plant control laboratory. He is now point where they are sales rep-

resentative and plant superintendent, respectively.

A short time thereafter there came a people like Lloyd Burris, Charles Dawson and Roy Travis, who joined our organization and are all now chief operators. It was only shortly thereafter that John Gresham, Robert Hall, Glen Lowe and Sylvia Opich came with us; they have remained to do a tremendous job.

30% of Staff Here 20 Years
It is interesting to note that the people I have named above, plus myself, constitute a number of 17 employees who have been with our firm in excess of 20 years, and these people comprise 30% of the employment at the Granite City plant.

As I stated earlier, any enterprise is only as good as its employees.

I think this fact can be borne out by the success of the Granite City operations of Reilly Tar & Chemical, not only through the persistent efforts of those named above, but of all our employees, the majority of whom have been with us for over ten years—and we hope will remain with us for many more.

Expansion of Facilities
Insofar as the plant is concerned, 1967 offers a considerable challenge, as I feel business will continue on the upswing. Three new prospective tenants and users of port facilities on the basis of offering services which should be required at an earlier date than any other port district in the state of Illinois, with the possible exception of the Chicago Regional Port District, which has been in existence for more than 20 years.

Study Further Development
On the basis of the increased interest in the port and the opportunities it offers for industrial development of this area, preliminary planning is now under way for the immediate development of other loading and unloading facilities, storage space and improvements.

These could not be used as the major portion, if not all, of the land which the Port District has under its control for leasing and development.

The importance of the port to the economic and industrial development of the area is attested to by the fact that private, commercial and industrial interests have been acquiring interests in and to more than 9000 acres within the Port District's boundaries and near the existing port facilities.

River Highway Being Built
No doubt the keen interest in the port has been stimulated by the

The American National Bank has expanded its parking facilities, has installed additional drive-in facilities, and has converted its checking account services to an electronic computer operation.

This computer operation provides the most efficient and accurate method of handling checking accounts available. Although the conversion has been tedious and expensive, it is making it possible for us to provide improved service—even though increased numbers of depositors and borrowers are using our facilities.

Progressive Leadership
We are fortunate to have so many sincere political and business leaders in the Tri-Cities who are working cooperatively for the advancement of the area.

These men, working through the Chamber of Commerce, City Council, Park Board, School Board, Associated Retailers and other such organizations, have made much progress, and they continue to work diligently to promote our area's growth. There are still many difficult tasks to be accomplished and we are confident that by working together through pride in our community.

We expect the year 1967 to be a year of heavy demand for the construction industry products we produce at our Madison plant.

Although some signs presently indicate that the highway building program may be curtailed somewhat during 1967, we are confident that increased residential, commercial and industrial construction will require full production rolling schedules for reinforcement.

We see no reason why the Laclede joint production facilities at Madison will not remain at a high level throughout the year.

The electric furnaces that Laclede installed and started at the Alton Works during 1965 had several start-up problems that had to be overcome during the first part of 1966. Fortunately, these problems were of a harassing nature only and none was of major scope.

High Input Capacity
By mid-September the "bugs" had been ironed out, and furnace performance took a marked upswing. The new electric furnaces are now capable of producing more steel ingots than our bloomery mill can roll into bars and billets.

As the Madison mill, and the finishing mill at Alton, need many more tons of steel, the bloomery mill can supply, we have had to supplement our billet supply by purchasing additional billets.

To relieve the billet shortage, Laclede is now in the process of installing two three-strand continuous casting machines. The building for hot casting equipment has been erected.

The machinery will be delivered during 1967, and we expect the equipment to be operational by the fourth quarter of the year.

Study European Technique
In Laclede's forecast to the Granite City Press-Record for the year, reference was made to the many technical improvements that are being made in the manufacture of steel products. During

Tri-City Regional Port District

By Carl A. Runtt, Secretary & Manager

The Tri-City Regional Port District's physical facilities created by the means of a bond issue in mid-1965 have had their first full year of operation.

In planning and developing this facility, the board had to project its judgment to determine the potential use of such facilities and the importance of such use to the overall development of the district.

The use made of the facilities in the past year has been adequate in itself to justify the indebtedness created by bringing these facilities into existence. But the real value of such facilities should be realized in the coming calendar year.

National Recognition
The Port District has had an unprecedented volume of inquiries for warehousing and loading and unloading facilities in the last three months of 1966.

These inquiries have come from national concerns, which points out the fact that the value of port facilities in the Granite City-Madison-Venice area is being recognized throughout the United States.

Because of the existence of the facilities installed with funds of the first bond issue in 1965, it is possible for the Port District to deal with prospective tenants and users of port facilities on the basis of offering services which should be required at an earlier date than any other port district in the state of Illinois, with the possible exception of the Chicago Regional Port District, which has been in existence for more than 20 years.

Study Further Development
On the basis of the increased interest in the port and the opportunities it offers for industrial development of this area, preliminary planning is now under way for the immediate development of other loading and unloading facilities, storage space and improvements.

These could not be used as the major portion, if not all, of the land which the Port District has under its control for leasing and development.

The importance of the port to the economic and industrial development of the area is attested to by the fact that private, commercial and industrial interests have been acquiring interests in and to more than 9000 acres within the Port District's boundaries and near the existing port facilities.

River Highway Being Built
No doubt the keen interest in the port has been stimulated by the

the actual undertaking of the beginning stages of construction on U.S. Highway 151, which will border the Port District harbor and give ready and swift access to the metropolitan areas on both sides of the Mississippi River.

In looking ahead for the year 1967, we see the prospect of rapid development of the commercial and industrial opportunities made possible by the port. We also see expanded use of the existing port facilities and a keen demand for development of additional physical properties to serve the commerce which our general area seems to be attracting.

Fine Municipal Cooperation
We feel that this is a time for pointing out that the unlimited cooperation and understanding extended by the municipal families of the cities of Venice, Madison and Granite City, and the official families of the towns of Venice, Granite City, Nameoki and Chouteau, as well as the cooperation and understanding given by the civic, commercial and industrial organizations within the Port District, have made it possible for the port to reach the stage of development that it enjoys today.

More important, that cooperation, assistance and understanding gives promise of rapid and substantial development in the Port District within the coming year. For this interest, we of the Tri-City Regional Port District are most appreciative.

It is our responsibility to support we have had from citizens and these public and private organizations, we pledge to support our efforts to accomplish the best possible economic development of our district.

Granite City Plan Commission

By William F. Hoelscher, Chairman

There is always a considerable gap between planning and the decisions and action necessary to carry planning into constructive improvement. The City of Granite City, through its Plan Commission, has moved ahead in planning during 1966 to the point where 1967 must surely be a year of decision and action if this planning is carried out in constructive improvement.

During 1966, the Plan Commission was composed of 11 members: the chairman, E. G. Schmitt, vice-chairman; Curt Blevins, Henry Gabriel, James Holland, Homer Huber, Barry Loman, Henry Lueders, Dave Morgan, Bill Mih and Boyd Presley. Mr. Presley replaced William Brockus, and Mr. Huber replaced Fred Gower.

The Commission worked at the direction of and in cooperation with the Aldermanic Planning and Zoning Committee—Alderman Paul Ruffedge, chairman, and Aldermen Charles Moerlein and Gene Sternberg.

Rezoning, Annexation
The Commission met in public hearing 17 times in 1966 for the consideration of general planning, rezoning and annexation petitions.

Twenty-one formal petitions for rezoning were processed. Of these, 12 were approved, six denied and two tabled for further study.

Thirteen informal requests were also considered. Important among those rezoning requests approved were three commercial business expansions; property for six new doctors' offices; two extensive new apartment projects, for Briard Development and Henry Ross Construction Co. covering two acres and ten acres, respectively.

Multiple duplex projects; two multiple duplex projects; and the number of lots for new commercial development.

Maintaining an aggressive annexation policy, the Plan Commission recommended seven annexations amounting to some 65 acres of land. All of

these annexations occurred in the eastern part of the city, between Maryville road and Ponton Beach.

Ordinances Amended
Numerous recommendations were made during the year to update and improve the City's Planning and Zoning Ordinances and Master Plan.

The City's Fire Code was amended with regard to apartment buildings; a mobile home park amendment was written but not adopted; the "special use permit" section of the Zoning Ordinance was amended for certain "professional office building" uses; a 1967 "Federal Special Population Census" was recommended to increase State Motor Fuel Tax refunds by more than \$20,000 per year; and it was suggested that the city's "Sanborn" lands-and-buildings maps be updated.

On Jan. 21, 1966, the Federal Housing and Home Finance Agency received the Granite City "Workable Program" for Feb. 1, 1967. This recertification was accomplished through the efforts of Dave Morgan.

In the recertification, the federal agency recommended a full-time resident planning staff for Granite City, a neighborhood analysis, housing assistance for families displaced from the older areas, and increased citizen participation in the planning process.

The southwestern Illinois Metropolitan Planning Commission, under the guidance of its executive director, Ted Mikesell, continued to work with the Plan Commission updating the city's Master Plan.

In 1966, the city made its second local-share payment of \$280 to the Granite City Illinois Project 1244 \$15,000 contract under which SWIMAP is carrying on the Phase I and Phase II Master Plan updating program.

The city also made a \$1005 general contribution to SWIMAP, based on population share, throughout the three-county area.

In March of 1966, SWIMAP submitted an "Intermediate Report No. 1," in which an entirely new set of zoning, annexation, lot and subdivision, and building permit maps and records was recommended. Funds for this project were granted by the City Council and the work undertaken.

Master Plan Progress
At the end of 1966, SWIMAP had essentially completed Phase I of the updating program. All "base mapping" and "land use surveys" were completed.

The "land use map" was divided into 70 classifications, using the "neighborhood unit" or "planning district" concept. The "economic base" and "population" were completed, and base data was gathered on "transportation facilities," "community facilities" and "housing study" portions. Planning goal formulation was begun.

During 1967, Phase II of the program will be completed. This will include an entirely new "zoning map," a "land use plan," a "transportation plan," new "zoning" and "subdivision" ordinances, and a general planning and zoning "policy statement" for future guidance.

After the Master Plan is completely brought up to date in 1967, the time for decision and action will have arrived.

The plans and goals set out will require full citizen participation, aldermanic action, private enterprise and investment, and possibly governmental assistance under the "urban renewal" program.

The Federal Urban Renewal Agency has offered a \$40,000 planning grant to the city, and a joint meeting of the City Council and the Plan Commission on this subject is planned for Jan. 30, 1967.

Public Office, Sewers, Parking
Our plans and goals set out will require full citizen participation, aldermanic action, private enterprise and investment, and possibly governmental assistance under the "urban renewal" program.

In 1967, we will be faced with the opportunity to further increase annexations in the northern and eastern boundaries of the city. This will require further road projects, such as the completion of Maryville road, and the adequacy of the Granite City sewer system will be foremost in issue.

Additional land acquisition by the city and school districts deserves serious consideration, as does a stepped-up program of abandoned building removal, demolition and neighborhood renewal programs.

We will definitely have our opportunity for decision and action in 1967 for the planned future development of Granite City. Will we decide and act?

of the more modern computer systems available. In keeping with the Army's policy of adopting proven business and industrial methods, Depot technicians are now in the process of developing systems and programs for providing computerized services to all of the Depot operations.

This new equipment will not only provide for greater efficiency—it will also enable the Depot to handle new functions more effectively. Current plans call for beginning this new system in mid-1967.

Summer Reserve Training
Confirmation has been received that the Depot will again be the site for training of 1400 National Guard and Army Reserve units from many states in different two-week periods between May and August.

I know that the citizens of the Tri-Cities area must share my pride in the Depot's accomplishments in the support of military operations in Vietnam and the support of the many other world-wide commitments for which we are responsible.

The Depot stands ready to answer the challenge of the future as an integral segment of the Army Material Command's role in the total defense effort of our nation.

Link With Community
The entire Granite City Army Depot family, the officers and enlisted men and civilian employees, look to the new year with confidence and renewed dedication, and toward commitment of warm and friendly relations with our civilian neighbors in Granite City, Madison and Venice.

The entire Granite City Army Depot family, the officers and enlisted men and civilian employees, look to the new year with confidence and renewed dedication, and toward commitment of warm and friendly relations with our civilian neighbors in Granite City, Madison and Venice.

Many families of the Tri-Cities area must share my pride in the Depot's accomplishments in the support of military operations in Vietnam and the support of the many other world-wide commitments for which we are responsible.

The Depot stands ready to answer the challenge of the future as an integral segment of the Army Material Command's role in the total defense effort of our nation.

American National Bank of Granite City

By Harold F. Karandjoff, President

The American National Bank of Granite City has progressed very well during 1966, and our forecast for 1967 is for continuing improvement in the financial and business development of our community.

The geographical location of the Tri-Cities provides transportation facilities by air, rail, ship and highway that are among the finest in the country.

The large tract of easily developed land adjoining Granite City provides for economical development for industrial and residential purposes.

These locations are superior to any elsewhere in the St. Louis area and, along with our highly efficient manpower, will continue to bring in more new and diversified industry to our community.

Nameoki Road Improvement
Probably the most important factor in the development of our area is the widening and resurfacing of Nameoki road. This will result, when finished, in a much improved traffic flow and our area. Ample parking spaces are provided by the area's merchants, and we are confident that a continually increasing number of shoppers will be shop-

ping the fine stores and facilities on Nameoki road.

It is expected that additional stores will be built on Nameoki road during 1967, and these stores will contribute to the trend of Granite City shoppers to buy locally. This trend to buy locally makes Granite City a better place in which to live.

Tri City Grocery Company
By S. E. Pershall Jr., President

Once again during 1966 our country reached the highest peak of prosperity ever attained.

Overall Gross National Product—the value of all goods and services produced—rose 8½% during the past year. I would think that would continue to increase in 1967, but perhaps at only about half the rate that it did during 1966.

There are three factors which will play an important part in the economy.

War, Tight Money, Taxes
Number one, the Vietnam War, whether it continues or stops. Unfortunately it appears that it will continue. This war, of course has been one of the major causes of the tight employment situation, which would probably ease if the war were to cease.

Number two is the tight money situation, which I feel will slow down all types of construction and evidently be in all types of businesses. It does not look like this situation will ease in the coming year.

Number three is the raising of income taxes and corporate taxes which I feel would also put a damper on the economy if put into effect.

Already there are some slowdowns in major as well as small businesses. Automobile sales are beginning to slip over a year ago. Also, many companies—although showing larger volume figures—are also showing less net profit because of rising costs.

Cautious Optimism
I am optimistic about 1967 but I feel that there should be a certain amount of caution as regards anticipating a great boom in the economy.

Tri-City Grocery Company showed an increase in volume during 1966 over the previous year. We also showed a small gain in profits.

We opened one new supermarket in 1966, a 10,000-square-foot store in Edwardsville. We also installed a gigantic 4000-square-foot storage freezer in our warehouse to help us handle our added volume in frozen foods.

We are in the process of adding 30% more space to our Jerseyville, Ill., supermarket. We also plan to open a new 17,000-square-foot supermarket in East St. Louis in 1967.

Industry, Roads, SUI, Port
I see no reason why the Quad-Cities area should not continue to progress and expand. Granite City Steel Company's expansion

Laclede Steel Company

By Paul B. Akin, President

We expect the year 1967 to be a year of heavy demand for the construction industry products we produce at our Madison plant.

Although some signs presently indicate that the highway building program may be curtailed somewhat during 1967, we are confident that increased residential, commercial and industrial construction will require full production rolling schedules for reinforcement.

We see no reason why the Laclede joint production facilities at Madison will not remain at a high level throughout the year.

The electric furnaces that Laclede installed and started at the Alton Works during 1965 had several start-up problems that had to be overcome during the first part of 1966. Fortunately, these problems were of a harassing nature only and none was of major scope.

High Input Capacity
By mid-September the "bugs" had been ironed out, and furnace performance took a marked upswing. The new electric furnaces are now capable of producing more steel ingots than our bloomery mill can roll into bars and billets.

As the Madison mill, and the finishing mill at Alton, need many more tons of steel, the bloomery mill can supply, we have had to supplement our billet supply by purchasing additional billets.

To relieve the billet shortage, Laclede is now in the process of installing two three-strand continuous casting machines. The building for hot casting equipment has been erected.

The machinery will be delivered during 1967, and we expect the equipment to be operational by the fourth quarter of the year.

Study European Technique
In Laclede's forecast to the Granite City Press-Record for the year, reference was made to the many technical improvements that are being made in the manufacture of steel products. During

1966, Laclede sent four men to Europe to visit steel producers and equipment builders.

Their observations that have been devised in Europe to improve steel mill yields, quality and production rates are most impressive.

Steel companies in the United States have indeed a heavy burden to bear, as they must compete with more expensive modernization programs being undertaken by European producers.

Intervention Harmful
Repeated government intervention in past industry wage negotiations and government control of steel prices have reduced earnings to show a very unfavorable ratio of net profit to an ever-increasing capital investment.

Reduced earnings mean less money available for improvements. Even the modest tax relief of investment credit was pictured "monorail" in 1966.

The brief slide of the picture however, is the determination of our industry to modernize its equipment and facilities and expansion programs are completed in 1967 and in the years ahead, employment and earnings will increase accordingly.

Granite City Army Depot

By Charles E. Hoskins III, Commanding Officer

My first eight weeks as Depot commander have been busy and interesting, and I am looking forward to the coming year with enthusiasm.

I am truly delighted with my assignment here in the Tri-Cities area, and am looking forward to even closer ties between the Depot and the communities which surround it.

My initial meetings with the various civic organizations of the area have been stimulating; I hope to continue this program of close contact with all local organizations and of working together toward solving community problems.

National, World Role
The Depot consists of land, building, equipment and people, and, in my opinion, the most important of these is its people. I am very proud of all the Depot people I have met and observed in the past few weeks.

Through the years of my career, I have had many opportunities of working with large numbers of government civilian employees, but I have never been associated with a more patriotic and well-qualified group of employees.

The Tri-Cities communities have a great responsibility to their dedicated citizens who, through their employment at the Depot, have made a major contribution to our nation's defense of the Free World.

Vietnam Support
During the past year, the Depot's support of military operations in Vietnam and world-wide commitments increased considerably. I expect our workload will continue to increase during 1967.

In keeping with the Department of Defense policy of consolidating Defense activities where possible to reduce cost and increase efficiency, the Depot is participating in a joint task force study which resulted in an approved plan to accept responsibility for all defense activities provided the many diverse Army activities scattered throughout the St. Louis area.

During the past year, the Depot's support of military operations in Vietnam and world-wide commitments increased considerably. I expect our workload will continue to increase during 1967.

\$2 Million Payroll Increase
The civilian payroll for 1967 is estimated to increase about \$2 million over that paid during the period July 1965 to June 1966, resulting in a total civilian payroll of the next same 12-month period of approximately \$12 million.

We anticipate expending \$13 million for supplies, services, equipment, and freight charges in support of the Depot operations. This total, an estimated \$4 million will be spent locally. During the coming year, we expect to install at the Depot one

of the more modern computer systems available. In keeping with the Army's policy of adopting proven business and industrial methods, Depot technicians are now in the process of developing systems and programs for providing computerized services to all of the Depot operations.

This new equipment will not only provide for greater efficiency—it will also enable the Depot to handle new functions more effectively. Current plans call for beginning this new system in mid-1967.

Summer Reserve Training
Confirmation has been received that the Depot will again be the site for training of 1400 National Guard and Army Reserve units from many states in different two-week periods between May and August.

I know that the citizens of the Tri-Cities area must share my pride in the Depot's accomplishments in the support of military operations in Vietnam and the support of the many other world-wide commitments for which we are responsible.

The Depot stands ready to answer the challenge of the future as an integral segment of the Army Material Command's role in the total defense effort of our nation.

Link With Community

Business Review and Forecast

Southern Illinois University

By Dr. Delyle W. Morris, President

Southern Illinois University at Edwardsville, passed the 7500 mark in enrollment this year, and analysis of our student records portends some changing patterns for the future that were impossible to predict five years ago.

While Madison county contributes by far the largest number of students, 3508, and this includes 735 from the Tri-Cities, we are experiencing a much greater interest in our program by students from distant points.

Though the campus has no residence facilities for students, and there is a very limited amount of housing for them throughout the county, 72 of Illinois' counties are represented by students. They also come from 18 other states and 20 foreign countries.

This is most encouraging. All of our great universities have a cosmopolitan atmosphere, allowing the interchange of ideas, of points of view, among people from all parts of our nation and all parts of the world. The learning opportunities for all of our students are thus enhanced.

More Housing Needed
At the same time, we feel it is unfortunate that we have not been able to provide living quarters for greater numbers of students who want to come here from distant points.

It somewhat restricts the learning opportunities of young people whose entire life may have been spent in nearby communities, who may have been able to travel only to a limited extent outside of our immediate geography, who may rarely be exposed to the intellectual climate of other regions as expressed in dress, dialogue and customs.

We are asking householders and apartment owners to extend space for these distant students within commuting distance of the campus.

We have asked private developers to explore with us the possibilities of building residence halls on the campus itself, with the University eventually acquiring such facilities on long-term lease arrangements.

George Moore, 64, Dies In Nashville; Painter

George F. Moore sr., 64, a painter, died Saturday at the Merchants Hotel, Nashville, Tenn. A native of Clarksville, Tenn., who had been a Granite Cityan 24 years, he had lived in Nashville for the past 16 years.

Mr. Moore is survived by his wife, Luella, Granite City; three sons, George jr., Granite City, Lyndell Moore, also of Granite City, and Bill Moore, Madison; four daughters, Mrs. Wanda Lee Sutherland and Mrs. Patsy Leitch, both of Granite City, and Mrs. Carol Scanlon, Madison; brothers and sisters; and 12 grandchildren.

Funeral arrangements are given in the obituary column.

—GO TO CHURCH SUNDAY—

Granite City Board of Realtors

By Ralph A. Morris II, President

As we look ahead into 1967 we are confronted with several big "ifs" in evaluating the immediate future of our industry.

My predictions, therefore, must assume that the war in Vietnam will continue at approximately the same level as in the past year. Also, whether or not we get an increase in income taxes will affect to some degree the amount of spendable money available in our area.

Looking back over this past year, we can readily see that the home construction and related real estate industry has been experiencing a mild recession.

Lack of Mortgage Funds

The major factor causing this has been the lack of availability of mortgage and construction funds at reasonable rates of interest. In other words, the "tight money" situation has affected our industry probably more than any other in our country.

Although it now appears that interest rates and loan discount "points" have about reached their maximum level, it may be well past the middle of 1967 before we begin to see a change downward in the rates. And then it probably will be very gradual.

There seems to be a definite lack of resources for mortgage money throughout the entire nation and, in fact, some large insurance companies are already completely committed all the way through 1967.

This surely tells us that any change for the better in easy financing will probably be slow in coming.

Dollar Volume Deceptive

Although the dollar value of total construction permits in the Tri-Cities set a record in 1966, the true picture of the number of housing units built is way down.

Bidding In January

In January, bids will go out on a \$3 million General Office Building, and a \$1.2 million Services Building, and we have been allocated state funds for a \$1.5 million Physical Education Building. Another \$1.3 million will go for additional work on buildings in use and for site improvement, including road extensions.

The lack of housing for students on campus and in the area constitutes the most serious obstacle to rapid educational development at Edwardsville.

Concern over the safety of youngsters with a variety of new firearms flocking to the wooded area near the railroad tracks and immediately west of Lueders Park Estates subdivision was expressed today by a resident of the area whose pet collie dog was killed by a shotgun blast Thursday afternoon.

Mrs. Terry Randall, 3337 Colgate drive, whose backyard extends to within about 50 feet of the wooded tract known as "hobo jungle," said that during the holidays the woods was "almost crowded" with youngsters armed with Christmas gift rifles, BB

guns, bows and arrows and apparently shotguns.

While Mrs. Randall did not see the shooting of her 11-month-old collie, Chauncey, the animal dragged itself to the front yard and then died a short time later at the animal hospital. The veterinarian said the dog had been shot at close range—from about two feet—with a shotgun, and that pieces of the shell wadding were found in the dog's wound.

Mrs. Randall said that over the past weekend, she called police several times to clear the area of armed youngsters.

Time to Buy—Now

As for when is the best time to buy a house, I would predict that prices in the future in our area will continue to rise. So, notwithstanding the higher interest rates of today, it still appears that now is the best time to buy if one is in need of housing.

There are several "built-in" cost escalators which cannot be ignored.

First of all, we have a continued high rate of employment and income in our area which should help keep the demand for housing high.

Second, as a result of most union contracts in the construction industry, there will be an automatic increase in the cost of construction labor each year. Sim-

ilarly, other union contracts will also affect upward the prices paid for materials and supplies.

Scarcity of Homes, Sites

Third, there is developing a scarcity in low-to-medium-priced housing units in single-family residences which will have the usual supply and demand effect of raising prices on existing houses.

Fourth, building sites are in a fixed supply and developers will have to pay more in order to create in 1967 the same number of sites used during the past year. This will probably be a continuing problem well into the 1970s.

It is, therefore, my belief that the cumulative effect of all these forces will result in a 5% to 8% annual increase in the overall cost of housing in the Tri-Cities for the next three or four years.

Also, in 1967, vacancies should be at the lowest level since world war II.

Daniel Jackson, 65, Found Dead at Home

Daniel W. Jackson, about 65, of 1516 Twelfth street, Madison, was pronounced dead upon arrival at St. Elizabeth Hospital at 7:30 p.m. Monday.

He was found in his quarters at the A-1 Transmission Service, where he made his home, by Larry Curtsman, son of the owner of the shop. Mr. Jackson was employed there as a watchman, and was last seen alive at 4:30 p.m. Monday. An inquest is to be conducted by Deputy Coroner Robert Thomas.

Mr. Jackson resided here about two years. A mechanic, he formerly operated a garage in Crocker, Mo., for about 25 years before moving to Madison.

There are no known survivors. An obituary notice appears elsewhere in this issue.

Madison Avenue Mishap

As Roosevelt Smith, 810 Washington street, Madison, pulled away from the curb at Third street and Madison avenue at 3 p.m. Saturday, the left side of his car met the right front of the northbound auto of Theodore Swiger, 1766 Venice avenue.

Obituaries

ABEL, MRS. LEOLA L., 417 rear Breckenridge, died at St. Elizabeth Hospital. Entered into rest 8 a.m. today, Tuesday, Jan. 3, 1967, at St. Elizabeth Hospital.

Beloved wife of Orville A. Abel; dear mother of Robert Abel; dear sister of Mrs. Edna Thrush, Mrs. Irene Benoit and Mrs. Vera Schilling; dear grandmother.

Funeral services 10 a.m. Thursday, Jan. 5, Central Christian Church, 2020 Johnson road, from MERCER MORTUARY, 1416 Nidringhaus avenue, where friends may call after 7 p.m. today. Interment City Cemetery, Louisville, Ill.

BALDWIN, MRS. IRENE GENELLE, 2119 Nevada avenue, Granite City, entered into rest Thursday, Dec. 29, 1966, at the Colonades.

Beloved wife of Harry Baldwin; dear mother of Mrs. Mary Pulley, James Womack and Morris Womack; dear sister of Ross Gibbons; dear grandmother.

Her remains lay in state at MERCER MORTUARY, 1416 Nidringhaus avenue, Granite City, Services at 2 p.m. Sunday, Jan. 1, 1967, at St. Elizabeth Church, Union, Ky. Interment in Union, Ky.

DELONEY, JEFFERSON DAVIS, 1229 Bissell street, Venice, Ill., entered into rest at St. Elizabeth Hospital. Entered into rest 6:20 p.m. Monday, Jan. 2, 1967, at St. Elizabeth Hospital.

Beloved husband of Mrs. Gladys Deloney; dear father of Wilson, John, Elmer "Jack" Elizabeth Hospital, Mrs. Ruby Kosteck; dear grandfather and great-grandfather.

Services at 10 a.m. Thursday, Jan. 5, LAHEY FUNERAL HOME Chapel, 501 Madison avenue, Madison. Friends may call after 7 p.m. today.

DUTCHIK, JOSEPH W., 2242 Washington avenue, Granite City, entered into rest at 8:30 p.m. Saturday, Dec. 31, 1966, at St. Elizabeth Hospital.

Beloved husband of Mrs. Elizabeth Dutchik; dear father of Clement J. Dutchik, Mrs. Betty Pieper and James Dutchik; dear grandfather and great-grandfather.

Services at 8:30 a.m. Wednesday, Jan. 4, from PIERCE FUNERAL HOME, 1029 Cleveland blvd., to St. Joseph's Catholic Church, 21st and State streets, for 9 a.m. Requiem High Mass. Interment Calvary Cemetery, Edwardsville township. Nearby at Pierpe's at 8 p.m. today.

GOSSETT, WILLIAM, Buckner, Ill., entered into rest at home. Beloved husband of the late Mrs. Gertrude Gossett; dear father of James William Gossett and Mrs. Maude Bodner; dear grandfather.

Services at 10 a.m. Wednesday, Jan. 4, 1967, at LAHEY FUNERAL HOME Chapel, 501 Madison avenue, Madison. Interment Jefferson Barracks National Cemetery, Mo.

GREEN, CHARLES LEE, 2803 Sunset drive, Granite City, entered into rest at 10:25 p.m. Sunday, Jan. 1, 1967, at St. Elizabeth Hospital.

Beloved husband of Mrs. Irma Green; dear father of Charles L. Green jr., dear brother of Earl and Claude Green, Mrs. Thelma James, Mrs. Hazel Bloodworth and Mrs. Virginia Compton; dear son of William F. Green; dear grandfather.

From MERCER MORTUARY, 1416 Nidringhaus avenue, to St. Margaret Mary Catho-

lic Church, Granite City, for 9 a.m. funeral services Wednesday, Jan. 4. Interment Calvary Cemetery, Edwardsville township.

Granite City PRESS-RECORD
Tue., Jan. 3, 1967 Page 17

J. D. Deloney, 79, Dies; Ill 3 Years

Jefferson Davis Deloney, 79, of 1229 Bissell street, Venice, died at 6:20 p.m. Monday in St. Elizabeth Hospital where he was a patient two weeks. He has been ill for three years.

Born in Desloge, Mo., he resided in Venice for 51 years. A carpenter, he was employed by the American Car & Foundry Co. for 32 years before retiring 14 years ago. He was a member of the Granite City Moose lodge.

He is survived by his wife, Mrs. Gladys Deloney; four sons, Wilson and Lloyd Deloney of Madison, John Deloney of Troy and Elmer "Jack" Deloney of Maroa, Ill.; a daughter, Mrs. Alice "Ruby" Kosteck of Madison; 10 grandchildren and 14 great-grandchildren.

An obituary notice appears elsewhere in this issue.

Sugar Poured into Tank

Mrs. Ruth Began, 2431 Edison avenue, reported at 7:30 a.m. Monday that vandals poured sugar in the gas tank of her 1965 A-1 while it was parked during the night at her home.

Parked Auto Damaged

The auto of Patrick Taylor, 2127 Washington avenue, backed against the front of the parked car of Willard Bloodworth, 2123a Washington avenue, at that address at 6:20 p.m. Friday.

Wayne and Debra Matthews; dear brother of Ralph Matthews; Mrs. Myrtle Smith and Mrs. William Sneed; dear son of George L. Matthews sr.

Funeral arrangements incomplete at CHILD'S FUNERAL HOME, Bloomfield, Mo.

MOORE, GEORGE F., SR., Nashville, Tenn., entered into rest Saturday, Dec. 31, 1966, at Merchants Hotel, Nashville, Tenn.

Beloved husband of Mrs. Luella Moore; dear father of George jr., Lyndell and Bill Moore, Mrs. Wanda Lee Sutherland, Mrs. Patsy Leitch and Mrs. Carol Scanlon; dear brother and grandfather.

Services at 2:30 p.m. Wednesday, Jan. 4, at MERCER MORTUARY Chapel, 1416 Nidringhaus avenue, Granite City. Interment Lakeview Memorial Gardens, Belleville.

PARKER, MRS. LOIS H., 1532 Nidringhaus avenue, entered into rest at 10:50 a.m. Friday, Dec. 30, 1966, at the Colonades.

Beloved wife of Finis "Dick" Parker; dear sister of Mrs. Beatrice Grill, Mrs. Hazel Martin and Mrs. Ethel Hoffman.

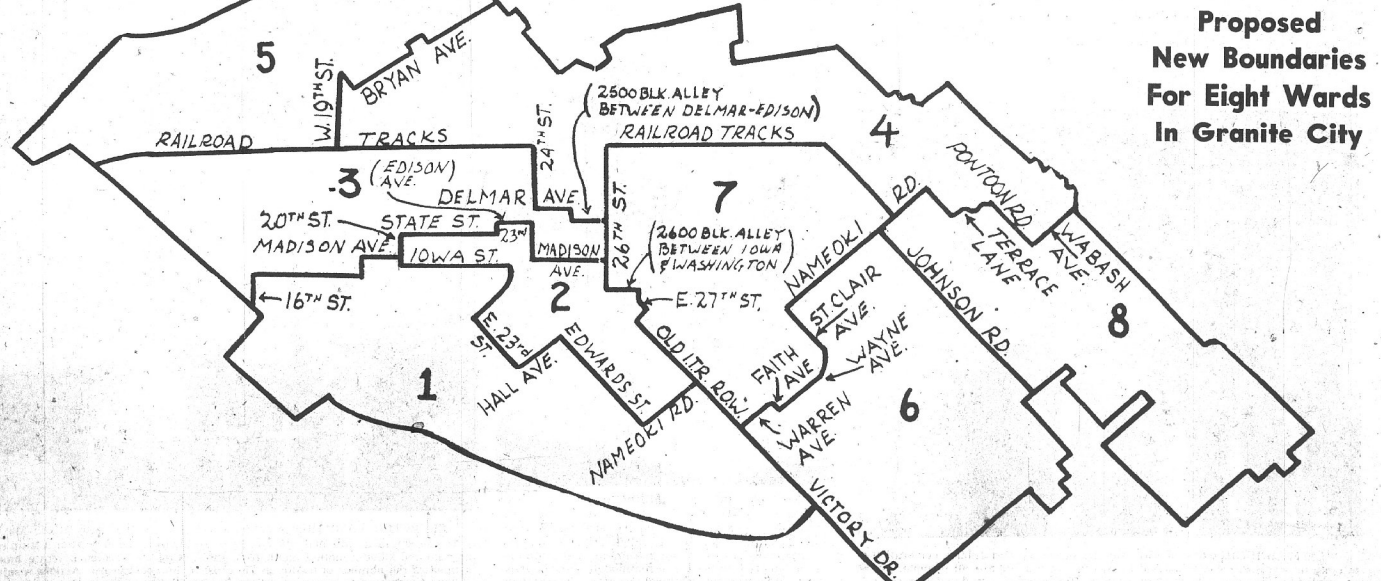

Funeral services were held at 1 p.m. today, Jan. 3, at MERCER MORTUARY Chapel, 1416 Nidringhaus avenue. Interment Sunset Hill Cemetery, Edwardsville township.

News Views of 1966 Quad-City Events

SPECTACULAR ACCIDENT of 1966 was the plunge by this auto from McKinley bridge at Venice. The car skidded through the bridge rail and fell 60 feet, landing on its top on a chain link fence that

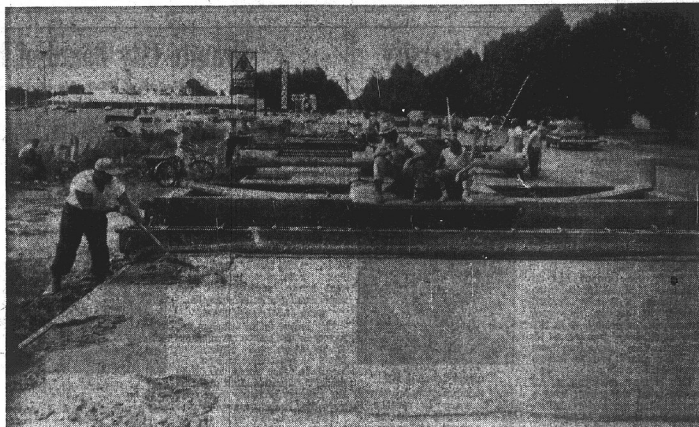

apparently helped cushion the impact. The driver survived with few injuries, spent a few days in the hospital. Although the car and driver were saturated with gasoline, it did not catch fire.

DR. FELICIA KOCH of Granite City was declared Illinois Mother of the Year early in 1966. She is congratulated here by Vice-President Hubert Humphrey at Grand Banquet Award Dinner in Washington, D. C., early in May.

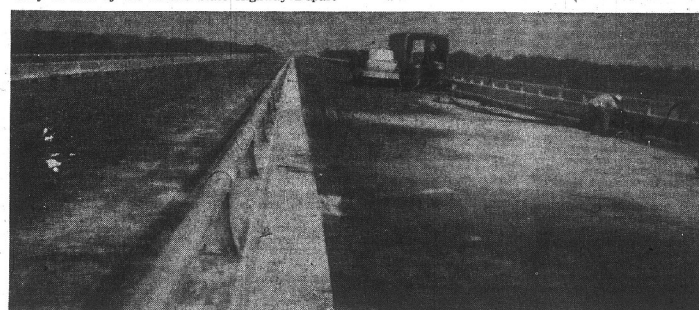

DEMOLITION OF THE old post office building was completed last spring, but workmen rescued the 3800-pound Eagle that decorated the building over the main entrance for 55 years. Workmen here chip away the stone around the eagle so it can be removed without damage. It is now in storage and will be erected in Civic Park which was created at Niedringhaus and 20th street by removal of the old post office.

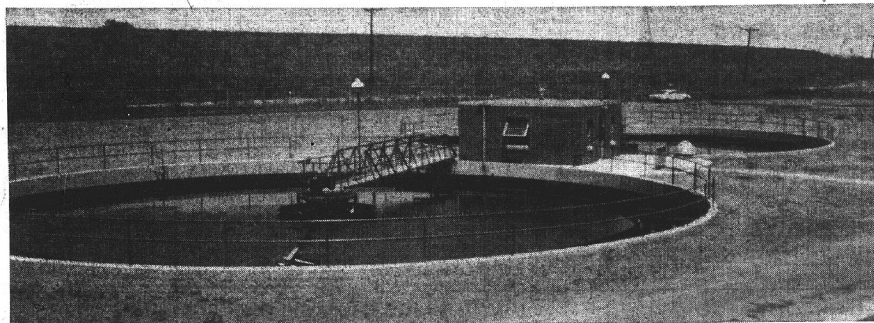

GRANITE CITY area waited ten years for this scene—the pouring of concrete to form new southbound lanes of Nameoki road in an improvement launched early in 1966 by the Illinois State Highway Depart-

ment. Newly improved road from Madison avenue to north city limits, is nearly complete. Finishing touches will be put on in early spring.

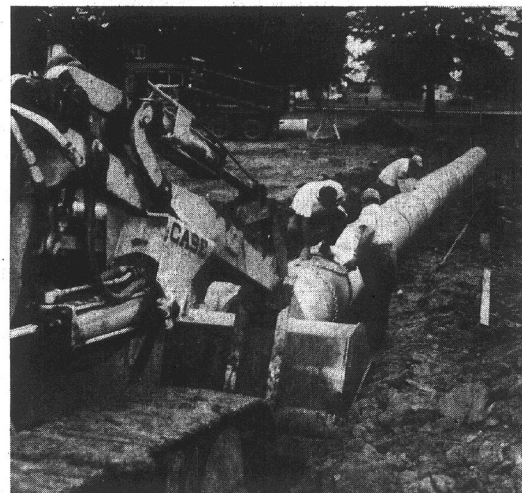

BROAD EXPANSE of the new Interstate Route 270 bridge west of Mitchell just a few days before it was opened to traffic between Illinois and Missouri on Sept. 2. Sandblasting rig in photo is used to touch up guard

rails. The bridge has serious effects on traffic on Madison-owned Chain of Rocks bridge and Venice-owned McKinley bridge. The bridge is toll free.

GRANITE CITY'S new sewage treatment plant went into operation during 1966. This view shows one of the four primary settling basins. Behind it is the pumphouse. The new treatment plant cost

the city \$1,290,000, began operation in midsummer. An open house is being planned.

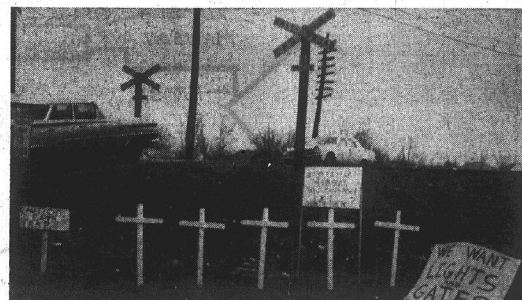

WORK BEGAN in August on the new Granite City ice rink and recreational center. First phase was construction of a stormwater sewer line, shown here, from the rink site toward Fehling road. The rink will cost about \$450,000.

FESTIVAL HIGHLIGHT of 1966 was the three-day 75th Jubilee celebration of the city of Madison. Mustaches and beards on these gents are all genuine, grown especially for the event. They were winners of the beard and mustache contest, one of several competitions held in connection with the celebration early in July.

JUNIOR SPORTS JAMBOREE held in early August at Coolidge junior high school and Granite City senior high school attracted 600 participants from throughout the state. Mrs. Elizabeth Day, one of many Jayceettes who helped host the group, makes up one of the hundreds of beds to accommodate three-day visitors. Athletic events were held on high school athletic field Aug. 5, 6 and 7.

EFFECTIVE CAMPAIGN to obtain warning lights and gates at the Maryville road crossing near Mitchell was waged by residents of the area after a train struck an auto and killed a mother and her daughter. Crosses, erected by irate mothers, symbolize the number of deaths in the crossing in recent years. Actions resulted in Illinois Commerce Commission orders for installation of protective devices. This scene was in March.

MORE ABOUT

23 Thefts

coats belonging to two persons.

Leland Reddie, 2218 Washington avenue, said the man took his \$15 jacket containing a radio and a pair of gloves. Kenneth Newberry, Route One, Dow, Ill., said his missing \$12 jacket contained a \$4 pair of sunglasses.

A .22-caliber revolver was stolen from the glove compartment of the parked auto of Leona Revell, Caryville, Ill., Saturday night at 21st street and Grand avenue. The locked compartment was forced open by the thief.

A pink purse containing \$30 and owned by Anna Urban, 420 Kirkpatrick Homes, was stolen from her apartment Saturday evening.

Herman Schroeder, 37 Del Rio drive, reported at 11:30 a.m. Thursday that a transistor radio valued at \$30 was stolen from his auto after Nov. 27.

An intruder forced open the front door at the legless tavern, 228 Madison avenue, Thursday night after attempting to open a door on the north side of the building. He left a broken rear door, and an initial report listed nothing as missing.

Brass slugs were used to obtain about \$20 worth of quarters from a coin changer at the Plaza laundromat, 200 Nameoki road, between Dec. 26 and Friday, police were notified.

MORE ABOUT

1966 Auto Stolen

The light blue 1966 Plymouth four-door station wagon of Viola Galle, 2228 Ohio avenue, was stolen while parked there Friday night.

Police located a stolen auto at 4:30 p.m. Saturday, parked in the 2100 block of Iowa street. It was released to the owner, Eugene Fordise, 2578 Westwing avenue, who had reported it missing at 9:35 a.m. Saturday.

A white 1965 auto reported stolen at 8:30 p.m. Thursday from Charles Groerich, Webster Groves, Mo., from the 1900 block of Cleveland blvd. was recovered at 11:20 p.m. by police at 2100 Washington avenue.

A blue 1953 auto reported stolen at 9:35 a.m. Friday from Edward Dunham, 2504 West 20th street, while it was parked at his home, was recovered at 1600 Chestnut street.

THEFT AT MOTEL

Phillip Holton, Florissant, Mo., reported at 1:55 a.m. Friday that three \$20 bills were stolen from a drawer in his room at the Travelodge motel after 11 p.m. Thursday. There was no sign of forced entry.

An old discarded bank book from the First Granite City National Bank was stolen in a burglary at the home of Mrs. Mary Costello, 2310 State street, between 11 a.m. and 1:30 p.m. Thursday, she reported at 2:45 p.m. Entry was gained by forcing the rear door.

Six colored floodlights valued at \$16 were stolen from the front yard of B. C. Gitcho, 3304 Nameoki road, about the night of Dec. 26, it was reported at 2:15 p.m. Thursday.

Two payroll checks for \$75 and \$85, issued to J. C. Cooper and J. Darden, were stolen from a desk drawer in the office of Young Metal Products Inc. between 7 and 8:30 p.m. Thursday.

Twenty-seven Christmas lights strung about the front porch of the home of Robert Cardin, 2528 Grand avenue, were stolen Saturday night.

A square of red coral siding valued at \$30 was stolen from the property of Howard Painter, 2527 Buxton avenue, Saturday night.

Using a pry bar, a burglar entered the Joseph Hart Academy School, 1301 21st street, Friday night through the back door. A report at 7:45 a.m. Saturday showed nothing missing.

An auto battery worth \$35 was stolen from the parked 1965 car of David Chepley, 1728 Spruce street, at the General Steel Industries parking lot while he was at work Friday evening.

MORE ABOUT

12 Persons

a.m. Sunday when his auto failed to make a curve at Route 203 and the Chain of Rocks road and left the pavement, striking a utility pole.

State police said Laub was the lone occupant of the car. He was given emergency treatment at St. Elizabeth Hospital and then admitted.

The southbound auto of John Love, 29 of 2721 Myrtle avenue went out of control and hit a tree in the yard of Mike Hogan, 3000 Wayne avenue, at 6:05 a.m. Sunday. The lawn also was damaged.

Police said the Love car overturned after striking the tree and was damaged about the front and rear. The motorist sustained minor injuries.

When his eastbound auto hit a parked car in the 2400 block of Sheridan avenue at 6:45 p.m. Saturday, Charles F. Kennedy, 41 of 29th street, was driving against the steering wheel, sustaining a chest injury. He was admitted to St. Elizabeth Hospital.

There was damage to the right front of his vehicle and the left rear of the parked auto of Caroline Hutchinson, 508 Margaret av-

enue, Mitchell. Police charged Kennedy with careless driving and a hearing was set for Jan. 13.

Passenger Injured

Mrs. Glenda Herrod, 1329 Edwardsville road, was injured when an auto driven by her husband, Fred Herrod, was struck from behind by a car driven by Abraham Kambarian, 2862 Madison avenue, at 8:10 p.m. Monday.

She was admitted to St. Elizabeth Hospital with an injury to her chin, which struck the dash board, and with a neck injury.

Herrod was stopped in traffic waiting to make a left turn into his driveway when the mishap occurred. Kambarian was charged with careless driving and was summoned for a hearing by Jan. 17.

Ignace Johnson, 60, St. Louis, suffered minor injuries at 5:35 a.m. Saturday when the rear of his southbound car hit the rear of the auto of Jim T. Majors, 204 Madison avenue, Madison, as Majors prepared to turn left from St. Louis street onto Third street, Madison.

Chas. J. Smith, 49, 2165 Benton street, was injured when he auto left the road on 22nd street and straddled railroad tracks at 7:55 p.m. Thursday.

He was treated at St. Elizabeth Hospital for a cut in his hip, a fracture of his right arm requiring three sutures and contusions to the back of his head. He then was charged with driving while intoxicated.

Dale Brackbill, 35, St. Louis, suffered a compound fracture of the nose and a nose laceration in a traffic accident Saturday. He was given emergency treatment at St. Elizabeth Hospital and then was admitted to the hospital, being released later in the day.

Mrs. Sadie Henson, 79, of 2033 Grand avenue, suffering a back pain as a result of an auto mishap, was taken to St. Elizabeth Hospital and admitted for treatment at 1 p.m. Friday.

GC Man Injured

Peter Morian, 63, of 2725 Birch avenue was admitted to St. Elizabeth Hospital at 4:35 p.m. Friday after suffering back and head injuries in an auto accident in the Collinsville area.

Truck Hits Auto

Mrs. Ednae Mason, 47, of Edwardsville, was injured when an auto driven by her husband, Roman Mason, was struck by a truck driven by Charles Lackman of Jerseyville Monday evening at Highway 11 and Route 35. She was taken to St. Elizabeth Hospital at 5:30 p.m. with a pain in her left leg and was transferred by request to Wood River Township Hospital.

Admitted to hospital, Elvis Byrd, 37, of 3106 Fehling road, was admitted to St. Elizabeth Hospital at 12:20 a.m. today with injuries sustained in an auto accident at Highway 111 and Route 35. He suffered contusions to the scalp which required 14 sutures. Details of the mishap were unavailable.

Farm Column

By WARREN W. BUNDY

Madison County Farm Adviser

Horseshadish Gets Top Billing

Horseshadish is the hottest thing to report this week. And, the hotter the radish, the better.

Illinois is the leading state in horseshadish, with more than half of the country's production coming from this area.

Chris Doll, University of Illinois area specialist in horticulture, and others recently dug and evaluated horseshadish roots grown in test plots on the William Burns farm in Namooki township. The test included native roots and imported roots from Poland, Netherlands, Denmark and Sweden. Results of these and other tests will be given at the tri-county annual meeting of the Vegetable Growers Association Jan. 17 and 18 in Madison county.

Gross returns from horseshadish can be quite high, often running above \$500 per acre. But before anyone gets "all heated up" about horseshadish, they should hear about "lifting."

Roots which have not been "lifted" develop multitudes of small, side branches and several crowns. Horseshadish processors object to the many small branching roots. They want a single, large root because it is easier to clean and process.

To produce the single, large root it is necessary at least twice during the growing season to break or brush off the side roots and all but the main crown. And this must be done without disturbing the root and position in the soil.

So, to accomplish "lifting," the soil around each plant must be removed, the root lifted, the excess roots and crown brushed off by hand, the soil replaced around the plant, and all of this must be done so that the plant will go on and produce a big, pungent root.

The soils in this area are reputed to put a special desired pungency in the horseshadish.

Other horseshadish studies with which Chris Doll assisted this year were horseshadish herbicide plots in cooperation with Bill Keller on his farm in Collinsville.

Main purpose of this study is to determine the extent to which weeds can be controlled

The Brink Family

JOHN W. ALLEN

Southern Illinois University

Some months ago Irvin Peithman loaned me a small typed book with the one-word title of "Brink." The singular title straightaway aroused enough curiosity to cause a close look. The book was read promptly and with interest. It tells, much too briefly, an interesting story about a German family named Brink that came to settle in Washington county about 1840, in an area that came to be almost entirely populated by other immigrants from Germany.

Then Irvin took me with him on a trip to the vicinity of the farmstead where the Brinks came to settle and build their first family home. This vicinity

FRANK L. CANTLON

Services Planned for

Navy Airman Cantlon

Memorial services will be held at 3 p.m. Saturday at the Ponton Baptist Church, 4008 Ponton road, for Navy Airman Frank Leonard Cantlon, 39, who was lost in the Mediterranean Sea Nov. 12 while serving aboard the aircraft carrier U.S.S. Intrepid.

Rev. Gus Falter, Jr., pastor, will officiate.

Airman Cantlon was listed as missing in November and his family was advised Friday that he is presumed to be dead by the Navy.

An investigation showed he apparently fell into the sea from the aircraft carrier, U.S.S. Intrepid, while on his way to the flight deck to perform aircraft maintenance duties. Aircraft searched the area but he was not found.

A Granite City high school graduate and a former Press-Record carrier boy, he entered the Navy on a four-year enlistment in August 1965.

His brothers, Harold and James, are serving with the Navy at Pensacola, Fla., and his brother, Allan, is with the Air Force in Thailand.

He was the son of Mrs. Virginia F. Cantlon, 2704 Buxton avenue, and Frank E. Cantlon, 809 Grand avenue, Madison.

Other survivors are another brother, Robert Cantlon, 2829 Cayuga street, and three sisters, Iva, 17, and Carol Ann, eight, both of the Buxton address, and Mrs. James (Darlene) Andrews, 2700 Myrtle avenue.

Stop and Think

Carelessness and carelessness on the highways are both habits—the choice is up to you.

People who miss the freedom train are those who try to live beyond their station in life.

In Circles

The person who has no fixed course in his work will find himself in a number of fixes.

So True

They may be blessings in disguise, but they often have a hard time proving their identity.

With various heretics.

This season's horseshadish harvest was started by area growers in late October. Some of the roots are marketed immediately, others are stored in refrigerated buildings for later marketing, and still others are left in the ground through the winter and will be harvested early next year.

Program details are being planned now for the St. Clair-Madison-Monroe counties Vegetable Growers' Association School to be held Jan. 17 and 18. Several subject matter topics important to vegetable growers will be discussed at the meeting, according to Robert Fournie of Collinsville, the association president.

Problems With Ponds

Many ponds and private lakes are becoming additional sources of farm income as well as conservation practices. Owners often must protect these earthen structures from burrowing animals, such as muskrats.

Muskrats make their home by burrowing in banks and dams. Burrows can weaken the dam.

Because of the value of muskrat fur, Illinois regulates the trapping of these animals. The seasons for trapping continue to noon on Jan. 5 in the southern zone. U. S. Route 36 serves as a division line between the two zones. By trapping during the season, you can legally protect your farm pond and lakes from muskrats.

If muskrats are a serious threat at other seasons of the year, you can get a special permit from the Illinois Department of Conservation to allow the Pest and Rodent Control Section of the Department of Agriculture to control them.

For control recommendations, ask your farm adviser for the muskrat control leaflet, number 306, printed by the Fish and Wildlife Services.

The trapping season for raccoons, opossums, skunks and weasels is the same as that for muskrats. You can reduce the population of these animals during the statewide hunting season that continues to noon on Jan. 31.

Other horseshadish studies with which Chris Doll assisted this year were horseshadish herbicide plots in cooperation with Bill Keller on his farm in Collinsville.

In the pursuit of happiness it's much better to be a pacemaker than a peacemaker.

of their home for \$10,000, a small price now, but no small sum then. Having two older sons already in Washington county and reporting favorably the parents and the other seven children naturally decided to follow them.

Setting out from Germany on a sailing vessel the voyage proved to be a long one of more than two months. After a somewhat rough crossing they reached New Orleans as winter was beginning and took passage on a north bound Mississippi River steamer. In December floating ice in the river forced their boat to tie up at Grand Tower in Jackson county.

Because of undue delays the steamer ran low on provisions. Men went ashore to hunt for food, with only fair success. Needed foods were in short supply in Grand Tower. The Brink group went into the countryside seeking supplies from the farmers, again with little success.

One of the traditional jokes handed down in the family tells of their refusal to buy sweet potatoes with which they were totally unfamiliar. They thought sweet potatoes were like rutabagas grown in Germany to feed livestock. As the story goes the one refusing to buy later became extremely fond of them.

River ice continued to run until it was decided to hire a wagon with oxen and complete the journey overland. It was midwinter, the roads were bad, and there was a marked shortage of the bridges. Travel accordingly was very slow. One bit of good fortune, however, came their way. On the second day after they were met by their two sons who had

received their letter and were on the way with a wagon and more oxen. It was decided that the hired wagon would proceed to Washington County and that the Brink family would continue to Grand Tower and bring goods stored there.

On one of the early days of their journey they found themselves being followed by a man on horseback. He proved to be a tavern keeper where they had stopped for the night before, looking for goods he said had been taken from his tavern by some traveler. He asked them to unload and allow him to search for articles he claimed someone had taken. The party protested the inconvenience and delay, whereupon he decided to ride along and ask at the next place available for a search warrant. They bid him welcome to do so.

When mealtime came they stopped to prepare food and insisted that he eat with them. Because they insisted he grudgingly consented to do so. After a solemn grace pronounced by the elder Brink the rider ate in silence. At the end of the meal he mounted his horse, told them that people so gracious, pious and friendly would not steal anyone's property, and turned back toward Grand Tower.

After several days of most difficult travel, and on Christmas Day, the party reached the cabin where before the new home was being built. They were lodged until their home was completed.

The mother, already ill, died before the new home was completed. She was buried in a grave, a short way east of the new home being built. A few months later the father also fell

ill, died, and was buried beside her. The third grave in the little plot is that of a Peithman, the first of record found coming to the German settlement in the county.

Both the Brinks and Peithmans, closely bound by family ties and loyalties, have many stories and traditions to relate about the early Germans coming into Washington County.

MORE ABOUT

\$1,240,000

gram may have to be revised by next June.

Illinois expects to receive \$111 million in federal highway aid, or \$38 million less than anticipated before the federal government announced on Nov. 23 that its allocations to states would be reduced for the new year.

The state is not certain of the amount of funds that will be made available during the last half of 1967, the governor said.

Most for Interstate Roads

Of the total of \$288,500,000 which was estimated will be available for 1967 highway work, \$185,660,000 is earmarked for work on interstate highways and \$82,840,000 for non-interstate highways.

Right-of-way costs are expected to total about one-eighth of the statewide program.

Continuation of construction of the Poplar street bridge at East St. Louis was listed by the program as one of 12 stated priority projects. The program allotted \$6,625,000 to this project and the approach complex.

Buy Bonds where you work. He does.

He's working in Vietnam—for freedom. And he's supporting freedom with his dollars, too. Every month he invests in U. S. Savings Bonds . . . saving up for a college education or a home, perhaps. There's a good way to show him you're on his side. Buy Savings Bonds where you bank or join the Payroll Savings Plan where you work. You'll walk a bit taller.

Quad-City Safety Council Elects, Plans '67 Program

The Quad-City Safety Council officers reviewed 1966 projects and formulated plans for their 1967 program at a recent meeting.

Newly-elected officers are Raymond Christman, safety director for Union Electric Co., president; Emmett Piaz, Madison police chief, vice-president; and Lt. William Condis, Granite City police department, secretary-treasurer.

Retiring officers present at the meeting were Kenneth Whitting-

ton, safety director of Granite City Steel Co., president; Curtis Donley, assistant fire chief, Granite City, vice-president; and Emmett Piaz, who was secretary-treasurer.

Council members discussed projects undertaken in 1966 which included purchasing a 16mm sound movie projector to show safety films in Quad-City schools, urging municipal governing bodies to expand traffic safety programs, participating locally in the nationally affiliated auto safety check program, participating in the "Back to School" safety drive, helping distribute materials for the National TV Driver's Test and participating in fire, home and water safety programs.

Space Age Spaghetti Supper Set at GCHS

The vocal music department of Granite City high school will present its annual spaghetti supper with a space theme from 5:15 to 7:30 p.m. Thursday in the new school cafeteria.

Terry Gage, president of the Advanced Mixed Chorus, is in charge of arrangements. Tickets will be \$1.25 for adults and 50 cents for children of 12 and under. Carryout orders will be available.

A feature of the event will be a fashion show of space costumes. Pamela Libbey is in charge of costumes. Also featured will be some "space age" as well as "down to earth" music, Warren Simpkins, department director, said.

The supper previously was planned for Nov. 15 but was postponed due to a breakdown of equipment in the old cafeteria. Tickets sold for the Nov. 15 date will be honored.

Pvt. Moss Completes Infantry Training

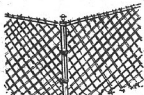

Army Pvt. Michael G. Moss, 20, son of Mr. and Mrs. Gerald Moss, 1629 Sixth street, Madison, has completed eight weeks of advanced infantry training at Fort Dix, N. J.

He received specialized instruction in small unit tactics and in firing such weapons as the M-14 rifle, the M-60 machinegun and the 3.5-inch rocket launcher.

Social Security Deductions Up

Social Security deductions are up this year for employed persons and self-employed workers, with the rate increase starting effective with the enactment of Medicare.

The deduction for employees is up one-fifth of one percent, or one cent on each \$5, earned, to increase the total employee deduction to 4.4%.

This is an increase of two-tenths of one percent over last year's total employee contribution of 4.2% of earnings. The employee payment is matched by the employer, and the tax will be paid on the first \$600 of earnings this year.

The new deduction will include 3.9% for retirement, survivors and disability insurance and one-half of one percent for hospital insurance.

Contributions of self-employed workers is up one-quarter of one

Alien Registration Begins in Area

Alien address reporting forms are now available at local post offices, as each January aliens living in the U. S. are required to report current addresses.

Last year about 300 aliens filed such reports at the post offices under the Immigration and Nationality Act of 1952.

The address reports must be made by all aliens residing permanently in the U. S. and aliens admitted for temporary periods, such as visitors, transients and students. Not required to register are those in diplomatic status or foreign representatives of certain international organizations.

percent, increasing to 6.4% the total contribution of self-employed workers. This includes 5.9% for retirement, survivors and disability insurance and one-half of one percent for medical

Severe Penalties For Tampering With Mail Boxes

Granite City Postmaster W. T. Overbeck, who said the Post Office Department has noted an increase in vandalism of mail boxes and receptacles, stressed today that the penalty for tampering with mail receptacles or mail calls for a maximum fine of \$1000 or three years imprisonment, or both.

Much of the vandalism, he added, is by pranksters, and in some cases by youngsters not knowing the consequences.

"The Post Office Department has issued a directive to all postmasters asking them to announce the penalties for tampering," Overbeck added.

Miss Toni Becker Is Engaged

Mr. and Mrs. Anton Becker, 2503 Stratford lane, are announcing the engagement of their daughter, Miss Toni Becker, to Terry A. Diebold, 6186 Pershing avenue, St. Louis, a son of Mr. and Mrs. Albert Diebold, Kellso, Mo. An early spring wedding is planned.

The bride-to-be, a graduate of the Granite City high school, is employed as a beauty operator. Mr. Diebold attended the Kellso schools. He is also a beauty operator.

NEW YEARS EVE CHURCH GATHERING

Second Baptist Church had its annual New Year's Eve party Saturday from 8 p.m. to midnight with the Training Union in charge of preparations.

A 90-minute Tony Fontaine film, "God's Country," was shown after which a social time and refreshments were enjoyed in the church basement. A skit, "An Unbearable Opera," was participated in by Arthur Hoffman, Russell Richardson, Clyde Seegars, Gerald Mayberry and Gary Wigger, with Mr. and Mrs. Cliff Stephens, Mrs. Georgia Mitchell, Mrs. Arthur Hoffman and Mrs. Maxine Davis in the

A solo, "Trees," was sung by Tom Wilson and another skit, "Spring," was by Howard Wigger. Photos were closing throughout the evening. At 11 o'clock the group returned to the church auditorium where the worship period led by the pastor, Rev. Clayton Humphrey.

Pray Marks on Auto

Several pray marks were found on the trunk lid of the auto of Steve Segedy, 2912 Warren avenue, apparently resulting from an unsuccessful trunk theft attempt Friday night while the vehicle was parked in front of his home.

New Year's Eve Vandals

As a New Year's Eve party was ending at the home of Mrs. Carolyn Wells, 2817 Birch street, at 12:30 a.m. Sunday, a group of teenagers drove up, ran to the house and broke both panes of glass in a storm door, police reported.

MISS PAMELA KAY BOSICH, daughter of the son of Mr. and Mrs. Peter Petroff, 2319 Gary avenue, is announced by her parents, Mr. and Mrs. John P. Bosich, 2110 Cottage avenue.

SOCIETY Petroff-Bosich Engagement

Mr. and Mrs. John P. Bosich, 2110 Cottage avenue, have announced the engagement of their daughter, Miss Pamela Kay Bosich, to Dennis James Petroff, a son of Mr. and Mrs. Peter Petroff, 2319 Gary avenue.

The announcement was made at a holiday party in the Bosich home. The prospective bride was graduated from the Granite City school and attended Illinois State University. She is also a graduate of Gradwohl Technology School in St. Louis and is presently employed as a medical technician in the biochemistry laboratory at Jewish Hospital, St. Louis.

The prospective bridegroom, also a graduate of the Granite City high school, attended the University of Illinois, Champaign. He is now a first year student at the University of Illinois Medical School in Chicago.

Two More Candidates Get Petition Forms

A six-day vigil to win first place on this year's township election ballot was begun by representatives of one candidate today as two other persons obtained petitions of candidacy from Granite City Clerk Homer Pendleton.

The Granite City township and city elections will be held April 4. The city will elect eight aldermen and a superintendent of streets. Three assistant supervisors will be chosen in the township election.

Latest to secure petitions were William Webb, 2421 St. Clair avenue, incumbent assistant supervisor who will seek re-election in the township election, and Emerald E. Dawes, 17 Terrace Lane, as candidate for alderman of the Eighth Ward in the city races.

Leroy Mangiaracina, who took out petitions last week as a candidate for assistant supervisor, was represented by friends who began sitting by the door to the city clerk's office to be first citizen when the filing period begins next Monday.

Stabbed in Fight

Larry Ward, 20 East St. Louis, was admitted to St. Elizabeth Hospital at 1 a.m. Monday, suffering stab wounds in the left shoulder and back of his chest. St. Louis police said Ward was stabbed in a fight with a man identified by Ward as "a friend," at the Hilltop Tavern, East St. Louis.

Parking Lot Mishap

As David Townzen, 3844 Lake drive, backed his car out of a parking space in a lot at 1855 Edison avenue at 12:30 p.m. Saturday, it struck the parked auto of James Fuller, 1604 Minerva avenue, police were notified.

Miss Nancy Jane Bell and Randy Stegelmeyer are Wed

Miss Nancy Jane Bell, a daughter of Mr. and Mrs. Stanley Bell, 3328 Lydia lane, and Randy Stegelmeyer, son of Mr. and Mrs. Ralph Stegelmeyer, 1516 Spring avenue, were married Friday evening at St. John United Church of Christ.

The bride wore a street-length dress of white satin brocade with rhinestone trimming. She carried a bouquet of gardenias and ivy.

Attending the couple were Marilyn Seibold and Jack McKeehan. The former was in gold brocade

TO BE MARRIED. Miss Toni Becker, who will become the bride of Terry A. Diebold, a son of Mr. and Mrs. Albert Diebold of St. Louis. The engagement is announced by her parents, Mr. and Mrs. Anton Becker, 2503 Stratford lane.

Miss Karen Sue Thomas and Stephen Purkapple are Wed

Second Baptist Church was the scene of the wedding Friday evening of Miss Karen Sue Thomas, a daughter of Carl Thomas, 2973 Grand avenue, and Stephen Purkapple, son of Madison Junior High Principal and Mrs. Donald Purkapple, 1824 Second street, Madison.

The Rev. W. Clayton Humphrey performed the ceremony at 7:30 o'clock. Lighted candles in candelabra, altar bouquets of flowers and greenery and white satin bows on the pews provided the setting for the double-ring service.

Craig Haynes was organist and Robert Roland sang the Lord's Prayer, "Saviour Like a Shepherd Lead Us" and "Because."

Mr. Thomas gave his daughter a wedding dress of white tulle with a classic gown of tulle and a rounded neckline and tea-cup sleeves and the relaxed sheath skirt had a detachable Watteau train, attached at the shoulders and cascading down the back.

The bride carried a cascade of white roses. A melody length veil of illusion was attached to a coronet of seed pearls.

A maid of honor, Miss Margaret Lichar, and three bridesmaids, Miss Barbara A. Grote, Miss LeEtta Marmion, and Miss LeEtta Marmion, and her father down the aisle. They were dressed alike in gowns with Empire bodices of red silk velvet with taupe necklines and long fitted sleeves cuffed with velvet at the wrists, and controlled ruffles of pink crepe.

Watteau panels starting at the waistlines flowing to the hemlines of the gowns were edged in matching red velvet. Velvet bows and brief bouffant veils formed their headpieces and they carried nosegays of pink carnations and red roses.

Betty Singleton and Brian Keith

Mrs. Tillie Garbers, 76, Dies: Former Resident

Mrs. Tillie Garbers, 76, of 104 National Trail, Collinsville, who was born and reared in the Chouteau Slough area, died at 9 a.m. today, at an Alton hospital, following a five-day illness. She had been hospitalized for three weeks.

Surviving are her husband, Louis Garbers, a brother-in-law and sister-in-law, Henry Windemann sr., and Mrs. Gladys Ohms, both of Granite City, and several nephews and nieces.

Funeral arrangements are pending at a Collinsville funeral home.

Annual Meeting, 1967
Scout Plans Discussed
Plans for 1967 were made during a dinner meeting of the Carhokio House Boy Scout Council board conducted by President A. P. Steinhauer Thursday evening at the Rose Bowl.

The annual business meeting and election is planned for Jan. 25 in Edwardsville, with the "Klone derby" scouting activity on Jan. 21 or 28 or Feb. 4, depending on when there is snow. Regional training will be conducted March 4 in Jacksonville, and Frank Preston, a national trainer, will be in the Quad-City area Jan. 17. Boy Scout Week is Feb. 7-13.

Miss Sue N. Huff is Bride Friday of Aaron Crumley

The wedding of Miss Sue N. Huff, a daughter of Mr. and Mrs. V. W. Huff, 3125 Wimmer avenue, St. Louis, and Aaron C. Crumley, a son of the late J. B. Crumley, and stepson of Mr. and Mrs. Leo H. Bender, Route One, was solemnized Friday evening at St. John United Church of Christ.

Rev. Paul Surbey officiated at 7:30, and a reception was held at the Bender home afterward.

M. F. Jacoby, Noted Scater, Dies in Crash

M. F. (Al) Jacoby, 55, of Wood River, a construction painter who had worked on several jobs in the Quad-Cities, was killed about 6:30 p.m. Friday, in a traffic collision near Ellis and his father down the aisle. They were dressed alike in gowns with Empire bodices of red silk velvet with taupe necklines and long fitted sleeves cuffed with velvet at the wrists, and controlled ruffles of pink crepe.

Watteau panels starting at the waistlines flowing to the hemlines of the gowns were edged in matching red velvet. Velvet bows and brief bouffant veils formed their headpieces and they carried nosegays of pink carnations and red roses.

Betty Singleton and Brian Keith

Speeding Arrests

Speeding charges were filed on Madison avenue in Granite City Friday afternoon against Dennis Behle, Chester, Ill., and Shirley Laehr, 1937 Grand avenue, Hennings were set for Jan. 19.

Motorist Charged

A careless driving charge was filed at Madison and Neiderhaus avenues at 2:45 p.m. Friday against Lawrence Butts, 25, of 2724½ Iowa street. A hearing was set for Jan. 10.

Sideswipe on Iowa

Autos of Woodrow Davidson, 244 County Road 50, Scott County, and Alvin C. Condit, 2961 Iowa street, sideswiped while going in opposite directions in the 2700 block of Iowa street at 8 p.m. Saturday. The left sides were damaged.

Charged with Speeding

Edward A. Boyer, 2221 Monroe avenue, was arrested by Venice police at 9:45 p.m. Friday on a charge of speeding on Broadway. He posted his driver's license as bond pending a hearing.

THE WINNING NEW YEAR'S BABY was born to Mrs. Beverly Hagopian at 12:03 a.m. today to win the annual "new year's baby race" sponsored by the Jaycettes and St. Elizabeth Hospital. Presenting prizes to the baby, a seven-pound girl, and the mother are, left to right—Mrs. Alberta Roegner, maternity ward supervisor and Mrs. Sharon Ritchie, Jaycette project chairman.

MORE ABOUT Building

carports at \$97,412, 236 for remodeling and repairs at \$201,692, 91 for commercial and industrial purposes at \$1,696,273 and 48 for miscellaneous purposes at \$3,721,454, including the new school and housing project.

The top month of the year was September when 53 building permits listed values totaling \$1,718,683. The total included the new school. Other months topping the million dollar mark were January with \$1,698,066, including Anchorage Homes, and August with \$1,032,688, including the ice rink and new church.

The most slack season was in the months of December and November, with values of \$67,350 and \$86,878 respectively. But in December of 1965, only five permits were issued with values totaling \$21,081.

Monthly Comparisons

A month-by-month comparison of 1966 figures with those of 1965, listing the 1966 totals first, follows:
January, \$1,568,096 and \$415,758; February, \$239,164 and \$370,995; March, \$464,020 and \$604,207; April, \$580,150 and \$547,992; May, \$740,645 and \$5,567,869; June, \$265,289 and \$1,016,307; July, \$441,275 and \$291,467; August, \$1,032,688 and \$192,190; September, \$1,718,683 and \$748,695; October, \$156,762 and \$2,319,947; November, \$69,878 and \$323,105; and December, \$67,350 and \$21,081.

No Major Effect Here From Gas Price Order

No immediate or major effect is expected in this area from a decision at Washington Friday by a Federal Power Commission examiner revising ceiling prices on about a third of the natural gas burned in the U. S.

The ruling, subject to commission approval, was described as potentially leading to refunds of millions of dollars to industrial and residential customers in 26 eastern and central states for a period dating back to 1960.

Examiner Joseph Zwierling issued an initial decision in a case covering gas produced in southern Louisiana and in federal oil-shore areas of the Gulf of Mexico.

The 283-page report, received this morning by Mississippi River Transmission Corp. in St. Louis, appears to indicate only limited impact, since both old and new ceilings were given and some of the older ceilings are similar to the prices that were in effect.

The transmission firm obtains most of its gas from the United Gas Pipeline Co., whose sources include south and north Louisiana and south Texas.

Illinois Power Co., local distributor, automatically passes on to its customers any reductions in basic gas costs.

Charles L. Green, 62, Turbine Operator, Dies

Charles Lee Green, 62, of 2803 Sunset drive, succumbed to an illness of two and a half years at 10:25 p.m. Sunday at St. Elizabeth Hospital. He had been hospitalized two days.

A retired Union Star and Refining Co. turbine operator, Mr. Green was a member of St. Margaret Mary Catholic Church. He was born in Allen's Creek, Tenn., and resided in Granite City 41 years.

He is survived by his wife, Irma; a son, Charles Jr., Granite City; two brothers, Earl of Madison and Fourth Ward Alderman Claude Green of Granite City; three sisters, Mrs. Thelma James, Granite City, Mrs. Hazel Bloodworth, Kankakee, Ill., and Mrs. Virginia Compton, San Jose, Calif.; his father, William F. Green, Granite City; and two grandchildren.

Funeral arrangements are given in the obituary column.

MRS. LOIS H. PARKER, 57, local clerk, dies.

Mrs. Lois H. Parker, 57, Local Clerk, Dies

Mrs. Lois H. Parker, 57, of 1532 Niedringhaus avenue, died at 10:50 a.m. Friday at the Colonades Nursing Home where she had been a resident for five months. Mrs. Parker, a clerk in several local stores, was ill several years with multiple sclerosis.

She had worked in the former Silverbloom store and Lee Shops and also Masses Dairy, and Pauline's Dress Shop. Mrs. Parker, a native of White Hall, Ill., lived here 37 years. She was a member of the Pontoon Baptist Church and a member of Retail Store Employees Local 435.

Survivors include her husband, Finis (Dick) Parker, and three sisters, Mrs. Howard (Beatrice) Grill of Sacramento, Calif., Mrs. Hazel Martin of Roodhouse, Ill., and Mrs. Ethel Hoffman of White Hall.

Funeral services were held today. Further information is given in today's obituary column.

Morris Again Heads GC Board of Realtors

Ralph A. Morris II of the Morris Realty Co. this week began his second one-year term as president of the Granite City Board of Realtors. He will preside at meetings of the group beginning Jan. 25.

Other 1967 officers are to be Carl Miller, vice-president; Ray Kegel, secretary-treasurer; and Francis Judd, Andrew Gitchett, John Bloodworth and Miller, directors.

On Jan. 11, Morris will begin duties as secretary-treasurer of the St. Louis chapter of the Society of Independent Realtors.

Bridge Toll Arrest

Venice police charged Eric Arenz, 27, St. Louis, with failure to pay the McKinley Bridge toll at 7:58 a.m. Sunday. Approaching at Broadway and Market street, he was released on \$25 bond pending a hearing Jan. 11.

Protestant Welfare Association Officers Installed in a Recent Ceremony

Left to right are—Rev. Robert Baumann, pastor of St. Peter United Church of Christ, installing officer; Roy Lynn, president; Bryan Waggoner, first vice-president; Mrs. Irma Taylor, board member; Dr. E. H. Theis, protom for Orville Ganz, second vice-president; Mrs. Minnie Dillard, taking the place of Mrs. Mary Simon, treasurer, who is hospitalized; and Mrs. Marie Whitte, office secretary.

Joseph Dutchik Dies; 6C Resident 65 Years

A Granite City resident 65 years, Joseph W. Dutchik, died at 8:30 p.m. Saturday at St. Elizabeth's Hospital. He had been a patient there 15 days and had been in failing health several weeks.

Mr. Dutchik, a native of Austria, was a retired East Side Levee & Sanitary District chauffeur. He served in the Army in World War I.

He was a member of St. Joseph's Catholic Church, the American Legion, World War I Veterans of the U.S.A., Team-Step Local 545 and the Western Catholic Union, of which he served as secretary for many years.

He is survived by his wife, Elizabeth, two sons, Clement J. Dutchik, Wood River, and James Dutchik, Granite City; one daughter, Mrs. Mary (Betty) Platter, Granite City; 13 grandchildren and one great-grandchild.

License Suspension, 2 Permits Announced

Secretary of State Paul Powell has announced the following actions by the Drivers' License Division of his office affecting residents of the Quad Cities.

Suspension—Sherman D. Seeger, 2712 National avenue, for three traffic violations.

Permitting period—issued—Griffin B. Stuart 2549 Centerville, and Robert E. Weather, 204 Elm avenue.

Levee Board Election Scheduled Tomorrow

A move to elect William "Mike" Ebersold as president of the East Side Levee and Sanitary district board of trustees is scheduled for 10 a.m. tomorrow in the board's regular meeting at the board of the December session, but the action was delayed under an ordinance setting the reorganization meeting in January. Reorganization meetings in previous years were held in December, however.

Ebersold, 2209 W. replace Lawrence Tolar, incumbent president. The reorganization meeting will precede the regular business session.

Two Local Couples Divorced Last Week

Two area couples were divorced in the Madison county circuit court last week.

Decrees were awarded to: Mrs. Charlie Page, Granite City, from Thomas C. Page, St. Louis, who were married Jan. 29, 1948, at Barnhart, Mo., and separated last Sept. 3, 1965. The divorce was granted. The decree was granted. The divorce was granted.

GC, Realtors Sued Over Mishap at Subdivision

A suit seeking \$25,000 was filed Friday for Mildred Harris against the City of Granite City, Madison G. and Norman Reinhardt, doing business as the Reinhardt 1509 St. Clair avenue, and grandchild Sandra Kay Serin of Madison, spent Wednesday in Witt, Ill. They were houseguests of Mr. and Mrs. Raymond Culbertson, 2809 McCandless avenue, Wednesday evening. The home was decorated with Christmas and a lighted tree revealed, planned.

Damaged in Madison

Two autos were damaged at 11:30 p.m. Friday in a collision at McCandless avenue and Second street, Madison. A car driven by Robert L. Buford, East St. Louis, headed south on McCandless, and one driven north by William Gray, 267 Allen, Eagle Park, collided. The Buford car was damaged in the front. Mrs. Gray car was damaged in the rear. Gary was charged with having no driving license and posted \$25 cash bond.

UNDERGOES SURGERY

John Hogan, 3206 Wiltshire drive, underwent emergency major surgery Friday morning. Hogan will spend the next week recuperating at St. Elizabeth Hospital.

CELEBRATE NEW YEAR

Mr. and Mrs. Mick Loftus, 32 Bermuda lane, entertained New Year's Eve guests in their home Saturday night. The guests were Mrs. Mary (Betty) Platter, Mrs. and Mrs. Joseph Seisler. A late luncheon was served following the games. The hosts had decorated her home in keeping with the holiday theme.

County Building Needs Exceed \$6 Million-Jail a Must

A long-range building program submitted by Southwestern Illinois Metropolitan Area Planning Commission to the Madison County board of supervisors estimates construction costs of its ten-point plan at more than \$6 million dollars and recommends a new county jail building as the top priority project.

The program currently is under study by the county board, and this week it was learned that opposition is developing on the proposed establishment of a suggested Public Building Commission.

The building needs study, under preparation for the past two years, proposes financing of the suggested building program through establishment of a Public Building Commission, which, under state laws, would have authority to issue revenue bonds without referendum to finance most of the proposed building program.

The study said that one of the major factors in the county's building needs is the projected population increase by 1985. The report estimates the county's current population at 246,000, but says past growth trends indicate this will increase by 1985 to around 410,000.

Estimates of the cost set out in the study have little meaning, the report set out, since they are based on current costs and do not take into account future construction cost increases.

In addition, figures quoted in the study are for construction only and do not include those of land acquisition, grading and site preparation, landscaping and commemorative features; installation of utilities, access drives and walkways; site engineering and architectural fees; legal and bonding fees, and furnishings and equipment.

Recommended Construction
The building needs study recommends:

1. Immediate establishment of a comprehensive county building program and formation of a County Building Commission to administer the program.
2. Construction at the earliest possible time of a new county jail on a site northwest of the present courthouse. The present jail is at 210 North Main street, Edwardsville, near the site of the proposed new jail. Cost estimate of construction only is \$1,727,000 for the jail complex and \$150,000 for a proposed Civil Defense Center of 300 square feet, a total of \$1,877,000.
3. Construction of a new administrative building on site northwest of the present county jail, estimated construction cost \$2,319,000.
4. Renovation of the present courthouse building for use as courts building; estimated cost \$1,204,000.
5. Construction of a county juvenile detention home on the present property of the Madison County Tuberculosis Sanatorium.

ing their building construction through the passage of referendum bond issues. But, the report added, "the likelihood of such measures passing is, at best, uncertain."

Because of the deteriorated structural condition of the Madison County jail, construction of the new jail complex is recommended as the first project to be undertaken. After completion of the new jail building, the report states, the vacated buildings could be razed to make way for

construction of the new administrative building on that site.

Then, following completion of the administrative building and possession of county administrative offices, the present courthouse could be renovated to accommodate the courts and county offices.

Other construction would be carried out in the order of priority determined by the Building Commission and an advisory committee which is also recommended by SWIMAPC.

Police Chief Willardt Honored on Retirement

Over 150 persons were present Thursday evening at the Elks Club restaurant, next door to the city hall, for the retirement party for Police Chief Raymond Willardt.

The party was given by the police department and the police union, and Robert Astorian, patrolman and president of the police union, presented Chief Willardt with a check for \$500 from the police health and welfare fund. The fund is supported by the annual police dance.

Chief Willardt also received a "key to the city" from Mayor Partney and also was the recipient of other gifts.

The chief retired Sunday after 24½ years on the city force and will be the Quad-City area deputy for County Sheriff George Musso. He will continue to be around the city hall, since the police department provides a room for the local area deputy.

New police chief for Granite City is Ronald Vizer.

Man Loses Brown Wallet

Friday—Fish sticks, macaroni and cheese, peas, carrots, ice cream.

Saturday—Hot dog on bun, baked beans, relish, applesauce.

SIU-SW Adapts to Fit Needs of Area Adults

"You're never too old to learn" is the philosophy of Southern Illinois University-Southwestern Campus Technical and Adult Education Division, and flexibility is its modus operandi.

Enrollment in course offerings has jumped 37% this year over last, which indicates the philosophy and method have some merit.

In a report issued by E. R. Cassavese, assistant dean of the division, the present enrollment is 674, compared to 498 a year earlier. In addition, he points out, an associate degree program which last year had 50 participants now has more than 300 students.

SIU-SW's first major adult education effort was launched in this area 10 years ago with a two-year industrial management program at Granite City in cooperation with the East Side Manufacturers Association.

Courses in this field were added at Alton the following year, and at East St. Louis in 1959. This year SIU-SW is taking courses from the campus to such plants as the Granite City Army Depot, the A. O. Smith Corp., Monsanto Chemical and Laclede Steel, and negotiations are under way with a company as far away as Panama.

Hundreds of employees have taken advantage of the SIU

courses in the plant where they work. Cassavese attributes the success of this program in part to its accessibility.

"For some," he says, "school has been a traumatic experience, so the idea of going down to the local high school for adult education doesn't appeal to them, for there they'd see strangers and a teacher who would give a grade. But if the same people have an opportunity to increase their knowledge by attending courses with their colleagues, they are more likely to buy the idea of higher education."

Surveys show that only 10% of the persons enrolled in this program have taken industrial management courses at other points.

Once they have taken the program courses, however, employees are often motivated to enroll in

other courses. Full-time in many instances, the entire Technical and Adult Education program must be completed in one year.

"You can tell an adult that he can take a course or two every year, and in 10 he can earn a degree from SIU-SW. This sounds too far in the future. On the other hand, a two-year program makes sense to him. He plans to live two years, but maybe not 10.

Social Security Office Sets Thursday Hours

The Social Security office in East St. Louis will remain open until 7:30 p.m. on Thursdays starting this week, Ralph Brasher, district manager, announced.

The new closing hour was set to provide a convenience for persons who work during the day or who cannot visit the office during the day.

Brasher advised those persons who soon will be 65 to visit the office to learn their rights and benefits in the Social Security and medicare programs. Enrollment in medicare can be three months before the age of 65, he said.

Man, Woman Arrested
George Jackson, 33, of East St. Louis, and Jacqueline Tapp, 31, of Apt. 22, Grenier Homes, Madison, were charged with criminal damage to property at 4:30 p.m. Thursday on complaint signed by Lora P. Webster, district manager, announced.

The Tapp woman also was arrested on a disorderly conduct charge at 2:35 Washington avenue and was fined \$20 plus \$5 for the day.

Woman Fined \$100, Costs
Dorothy Hankins, 38, of 904 Grand avenue, Madison, was fined \$100 plus \$5 costs Friday by Magistrate Matosian on a charge of theft under \$100. She was arrested for shoplifting by Granite City police during the holidays.
